- VP8_fal- Jan, K4QD (VP8CRB & VP8TTY) [425DXN 397] operates from an abandoned Loran station on the top of a hill overlooking Port Stanley. There are two 150 foot towers which are 250 feet apart and the three wire antennas are suspended between them. He reports he is meeting his goals (to make over 10,000 contacts during his three week stay, to operate CW, which is rare in the Falklands, activate the WARC bands and reach difficult areas like Asia), although 80 and 160 metres have been disappointing. He is building a 160 meter loop which will be vertically polarized and installed for a concentrated Top Band effort all Friday night and Saturday night. QSL via K4QD either direct (Jan Heise, 8595 Sheridan Rd, West Melbourne, FL 32904, USA) or through the bureau. [TNX W3UR]
- VP9 - Dick, N1RCT will be active (on RTTY only) as VP9/N1RCT from Bermuda (NA-005) between 30 January and 4 February. He expects to be on 20 metres split hopes to operate for at least 40 hours total. Dick will be using 100 Watts and a multiband dipole; a special Japan-only hour will be daily from 22 to 2300 UTC. QSL direct to W6/G0AZT (Eddie Schneider, P.O. Box 5194, Richmond, CA 94805, USA) or via the bureau to N1RCT. A web page is available at <http://www.megalink.net/~n1rct/dxcc/vp9.html> [TNX N1RCT]

- ZL9 - The ZL9CI team left Wellington, New Zealand at 00.20 UTC on 1 January and arrived at Campbell Island after a 90-hour voyage. They started unloading the 5 tonnes of equipment and begin to assemble the antenna system at 4 a.m. on 5 January in order to commence

operations on or around 23 UTC on 6 January. In the first 23 hours they made 10,724 QSOs (more than half on CW), operating six stations on most bands. Ron, ZL2TT was scheduled to be the SSTV operator, but as he is not making the trip and as the other operators do not have the expertise to run SSTV, it will no longer be a featured mode on the expedition. Their permit restrictions still are in place and they cannot be operational from 1100 UTC to 16.30 UTC. However, rough seas prevented the team from leaving the island safely and that is why they were active during the ZL9 night on 7 January. QSL via ZL2HU (Ken Holdom, P.O. Box 56099, Tawa, New Zealand). [TNX N1DG]

- Jean-Pierre, ON4BBA and other operators from UBA Diest will be active on all bands (CW, SSB and RTTY) between 18 and 25 July from Yeu Island (EU-064) and plans are to enter the contest with a special call. [TNX ON4BBA]
- LX2LX, LX1NO, TF8GX and maybe TF8SM will be active from Westman Is (EU-071), call to be announced. They plan to work on RTTY and WARC bands shortly before and after the contest. [TNX LX1NO]

DX STATION WANTED ---> Kenny Sanchez, KG2FH offers his services as QSL manager for a DX station. Those interested are invited to get in touch with him at kg2fh@intergrafix.net

EP3PTT ---> During his latest business trip to Iran (October-December 1998) Mirek, VK3DXI was able to operate at the EP3PTT club station located in the building of the Ministry of the Telecommunication in Tehran. EP3PTT is active every day except Fridays, between 17-19 local time, using 10 watts and dipole antennas for 20 and 15 metres. Guest operators are welcome. For further information please contact Mirek at mirelec@singnet.com.sg [TNX VK3DXI]

FT5ZH ---> The recent DXpedition to Amsterdam Island logged 32065 QSOs (27063 on SSB, 4444 on CW and 558 on RTTY) with 14005 different stations. 14739 QSOs were with Europe, 10448 with North America, 279 with South America, 5592 with Asia, 765 with Oceania and 202 with Africa. The band/mode (SSB/CW/RTTY) breakdown is as follows: 27 QSOs on 160 metres (0/27/0), 1387 on 80 metres (1298/89/0), 2823 on 40 metres (2037/786/0), 1048 on 30 metres (0/1048/0), 10940 on 20 metres (9376/1119/445), 2459 on 17 metres (2360/99/0), 4870 on 15 metres (4550/207/113), 2541 on 12 metres (2251/290/0), 5970 on 10 metres (5191/779/0). [TNX F5NOD]

NAVASSA ---> "The Director of the Office of Insular Affairs advises all persons interested in visiting Navassa Island that, having made a preliminary review of the island's ecology, he has decided indefinitely not to allow visits to the island and its surrounding waters until he has received a further assessment of the island's environment and conservation status". The announcement comes from the Internet Web page of the US Dept of Interior. [TNX DX News Sheet]

NEW ORLEANS CONVENTION ---> The 8th annual New Orleans International DX Convention will be held on August 27-28, 1999, at the Royal Sonesta Hotel on Bourbon Street in the New Orleans French Quarter. For the latest information on convention developments, check the Delta DX Association website at <http://www.gnofn.org/~w5ru/> [TNX W5FKX]

NEWS FROM POLAND ---> Irek, SP3SUX reports that effective 1 January Poland is divided into 16 new bigger regions (previously 49). The administrative change will affect SPDX Contest exchanges and SP-awards, but not amateur radio callsigns (by the way, "vanity" car plates with, for instance, amateur radio callsigns will be soon allowed in Poland).

POSTAL RATES (CANADA) ---> Postage rates in Canada have changed since 4 January: the new rate from Canada to the US is now 55 cents, while from Canada to all other countries is now 95 cents. [TNX The Daily DX]

POSTAL RATES (USA) ---> The postage rate from the US to the US will change from 32 cents to 33 cents on 10 January 1999. This does not apply to DX stations: rates are likely to change sooner or later, but till that moment air mail remains at 60 cents.

PP5 OUTGOING BUREAU ---> Ooops! It is the PP5 (Santa Catarina State), *not* the PY5 (Parana State) Outgoing QSL Bureau that currently does not work [425DXN 400]. It is confirmed that PP5ASN and PP5AS handle cards for DL and ES respectively, but for the time being amateurs in other countries cannot receive any card through the PP5 bureau. We apologize for any inconvenience the typo may have caused our readers.

QSL ROUTES ---> Michael, DJ5AV is the editor of the German DX News Letter and says that "Paul, ON6DP is an important source for my QSL routes. His new QSLMGR.EXE with 49058 QSL routes can be found at <http://perso.infonie.fr/on6dp/qslmgr.html>"

QSL AH6PN/HR6 ---> Effective 1 January 1999 Bob, W7TSQ is the QSL manager for AH6PN/HR6. Cards can be sent either direct or through the bureau. Please note that Bob does not expect to get the first logs until mid February. [TNX I1-21171 and W7TSQ]

QSL BD4DW ---> BD4DW (David Y.J. Zhou, P.O. Box 040-088, Shanghai, China) reports to be used to replying to direct cards within 48 hours from receipt. If you do not get your card within reasonable time, you may wish to get in touch with David at bd4dw@qsl.net

QSL EU-039 ---> Maxime, ON4LCW reports he is having some problems with the printer and the cards for his F/ON4LCW/P July 1998 operation from EU-039 (Chausey Islands) are not ready. Please be patient. Fred, ON6QR reports that the cards for TM5T (1998 IOTA Contest) have been printed and will be sent out by the QSL manager (ON4GO) as soon as possible.

QSL FT5WH & FT5ZH ---> DXers are requested not to send cards for FT5WH and FT5ZH in the same envelope. In fact, while the QSL route is the same for both stations (F6KDF: Radio Club de la Gendarmerie, 292 route de Genas, 69677 Bron Cedex, France), the cards are actually handled by two different groups of managers at the Radio Club. Moreover the logs for FT5ZH are already

available, but it is not known when FT5WH is able to send his. [TNX F5NOD]

QSL KC4AAA ---> Bob, NC6J has been the QSL manager for this station for ten years and has now decided to turn the job over to K1IED. Effective 1 January 1999 K1IED will handle all prior and future QSL cards. [TNX K1XN and The Golist]

QSL MU0ASP & MJ0ASP ---> Jacky, F5OIU reports he is *no longer* the QSL manager for MU0ASP & MJ0ASP (that is Mathieu, F5SHQ, who has been active from Jersey and Guernsey since July 1998). Jacky suggests to get in touch with the operator (Mathieu Roche, Longueville Manor Hotel, St Saviour, Jersey JE2 7WF)

QSL UP5P ---> This the special call used by Romeo, UN5PR in contest. QSL direct to Romeo Y. Loparev, P.O.Box 73, Temirtau, 472300 Kazakhstan [TNX UN5PR]

- 9A - 9A4DU (Ante), 9A6DX (Nick) and 9A4NC (Zoran) will be active (SSB and CW) as home call/p from Mljet Island (EU-016) between 16 and 25 January. QSL via home calls either direct or through the bureau. [TNX 9A4DU]
- C6 - Don, KN4UG will be active as KN4UG/C6A from Abaco Island (NA-080) until 19 January. QSL via KN4UG either direct (Don Namm, 103 Birkhaven Drive, Cary, NC 27511, USA) or through the bureau. [TNX OPDX Bulletin]
- FO_au - Wulf, DL1AWI and Mat, DL5XU plan to operate respectively as FO0AWI and FO0XUU from Rurutu (OC-050), Austral Islands and Nuku Hiva, Marquesas Islands (OC-027) between 16 January and 5 February. QSL via DL5AWI. [TNX The Daily DX]
- KL - Frank, KL7FH/KL1SLE is planning on being on St. Lawrence Island (NA-040) in the next 2-3 weeks. This may only be a one day/night operation. For more information visit <http://www.customcpu.com/personal/kl7fh> [TNX KL7FH]
- VE - Special event station CI6CI will be active (on all bands SSB) on 16 and 17 January to celebrate the 20th anniversary of the Peace Country ARC. QSL to Peace Country ARC, 9836-83rd Ave., Grande Prairie, Alberta T8V 3T5 Canada. [TNX DX News Sheet]
- VK9_coc - Kazu, JA1CMD will be active (on all bands 10-160 metres, mainly on CW) as VK9CA from Cocos Island (OC-003) between 16 and 20 January. QSL via JA1CMD either direct (Kazu Miyamori, #52604 Hilton Residence II, Jl Gatot Subroto, P.O.Box 4083, KBY Jakarta 12040, Indonesia) or through the JARL bureau. [TNX JA1ELY]
- VU - Norbert, DJ9RB is active on 10 metres as VU2RBQ from southern India until 23 January. Look for him at his local sunrise and sunset on 1824.5 KHz. QSL to DJ9RB via the bureau. [TNX DL2GAC/VU2BMS]
- VU - Manohar, VU2UR (other calls AT2UR & AT0ITU, e-mail q7x@hotmail.com) will be active with the special call AT0U during the weekends between January and March. QSL via VU2UR (B.L. Manohar, House MIG-6, 80 feet Road, Kingeri Upnagara, Bangalore 560060, India). [TNX Vikram bir Singh]
- YB - Ronny, YC8TXW and Benny, YC8YZ started their operation from Obi Islands (OC-222) on 10 January, a couple of days earlier than expected. According to Jo, YC0LOW they were expected to be active "for three or four days" on 80, 40, 15 and 10 metres, CW and SSB, low power. QSL via YC8TXW (P.O. Box 166, Tahuna 95800, Indonesia).
- ZL9 - ZL9CI expected to hit the 50,000 QSOs mark on 15 January. The main pileups to Europe on 40, 20 and 15 metres CW are still huge, and they are continuing their push on these bands. SSB on 40 and 80 metres remains a low priority at this stage of the DXpedition, probably not until early next week as it now stands. 10, 12, 15 and

17 metres are good to Europe when conditions pick up, and they will be on those bands (CW and SSB) daily between 06.30 UTC and 10.00 UTC until things cool off. RTTY operation has commenced on an almost daily basis on 20 metres at 03.30-05.30 UTC and a big push is expected this coming weekend. As the other bands thin out, and they have more time to dedicate an operator to RTTY, these short hours will increase. QSL via ZL2HU (Ken Holdom, P.O. Box 56099, Tawa, New Zealand). [TNX N1DG]

5T5CW, P29FV, P29MC ---> Norm, K6ZDL/5 states "no logs received or retained" for 5T5CW, P29FV and P29MC, "stations have been closed for over 10 years". Do not send your cards to him. [TNX K1XN and The Golist]

C6 BUREAU ---> C6AFV is now handling bureau cards distribution for the Bahamas Amateur Radio Society. The new address is P.O. Box F, 43563 Freeport, Bahamas. [TNX C6ANO]

POSTAL RATES (CANADA) ---> Further information [425DXN 401] comes from Garth, VE3HO. As of January 4th the new rates for 20 grams are 95 cents (international air mail) and 55 cents (mail to the USA), but the actual costs are higher due to the government tax on postage stamps. Therefore 95 and 55 cent stamps cost respectively 1.02 VE dollar and 59 cents to purchase. One US green stamp is approximately equal to 1.50 Canadian when exchanged at the bank. One IRC currently is not being redeemed for a 95 cent stamp, the post office is still giving only a 90 cent stamp.

QSL 8P9BX ---> This was Winston Seeney, VE3WFS who operated from Barbados (NA-021) for about three weeks over the Christmas holiday period. He was not permitted to put up antennas from his hotel, so he put everything into a shopping cart and got permission to operate from St. John's Parish cemetery (!). QSL via VE3WFS. [TNX VE3SRE]

QSL DU3NXE ---> Chuck, DU3NXE reports his new QSL manager is W3HMK. [TNX K1XN and The Golist]

QSL EP2MKO ---> Ali, EP2MKO says he knows nothing about F/HH2HM, who is not his QSL manager. The correct manager is still UA6HCW (Igor Kovalyov, P.O.Box 59, Pyatigorsk 357500, Russia). Ali also reports he has never operated on either 80 metres and WARC bands. [TNX RW3AY]

QSL XM7P ---> All the cards for XM7P (May 1998 operation from Trutch Island, NA-181) [425DXN 368] have been sent out, but some of them went out without the QSO data on them. QSL manager VE7ARS (ve7ars@sfu.ve7cc.ampr.org) reports he will re-issue the blank cards and that there is no need for stations to send another card or more postage. [TNX OPDX Bulletin]

QSL YO2LDE ---> Cards can be sent either to the new QSL manager, N1NJ (Tony Naglieri, 22 Sherwin Street, Ware, MA 01082-1020, USA) and to YO2LDE's new address (Daniel M. Vuescu, Zadei F3-1-7, RO-1700, Resita, Romania). Daniel's e-mail address is yo2lde@qsl.net [TNX YO2LDE]

QSL VIA IK2PZG ---> Bruno, IK2PZG reports all direct cards for IOTA and IIA 1998 operations (IL7, IC8, ID8) by IK2PZG, IK2WXW, I8KCI and IK8UHA have been sent out.

QSL VIA IK7JWX ---> For any query about Alfredo's (IK7JWX) past operations from Albania (ZA/IK7JWX) and several Italian islands (IJ/ and IL7/) please get in touch with him at adenisi@webitalia.it

SALENTO ISLANDS AWARD ---> It is sponsored by ARI Lecce and Salento DX Team. A web site has been established and further information can be found at <http://www.freeweb.org/hobby/IK7JWY/sia.htm> [TNX IK7JWX]

Plans are to operate (SSB and CW) on all bands from 10 to 80 metres, maybe on 160 and 6 metres as well. During his trip to Midway he will stop in Honolulu, Hawaii (OC-019) from where he might be active, probably as KH6/IV3NVN, between 16 and 20 February. QSL via IV3TMV. [TNX IV3NVN]

T3 - OK1RD (Jarda), OK1RI (Jiri) and OK1TN (Slavek) will leave Fiji on 28

February. Starting on 1 March and for about a week look for T30RD to be active from Tarawa, West Kiribati (OC-017). ZL9 - Bands have been very slow in ZL9 mornings (15.30-23.00 UTC), but extremely big in the evenings (05.00-10.00 UTC). The limited time at their sunset caused them to make choices: basically, their policy was to work down the main needs first, and then tackle the fringe stuff (RTTY, 160, 80, etc) with more focus after that. From now until they go QRT Europeans should look for them on 160 metres at 16.30 UTC. On 40 and 80 SSB they plan to operate 08.00-09.00 UTC for Europe, 09.00-10.00 UTC for North America and 10.00-11.00 UTC for Japan. SLIM REPORT: please note that they were not on 40 metres CW between 11 and 17.15 UTC on 17 January. QSL via ZL2HU (Ken Holdom, P.O. Box 56099, Tawa, New Zealand). [TNX N1DG]

>>> KING HUSSEIN OF JORDAN, JY1, SK <<<

The late King Hussein's role in the Middle East is well known all over the world. However, amateur radio enthusiasts, even those who had the honour of working JY1, may ignore that His Majesty's support "was invaluable to us in obtaining new amateur bands [namely 12, 17 and 30 metres] at the 1979 World Administrative Radio Conference: Jordan's support of the Amateur Service was much in evidence at the conference that fall, and was a crucial element in our success." (David Sumner, K1ZZ, ARRL Executive Vice President). While the world mourns the death of the ruler, we mourn the loss of a friend who believed in Amateur Radio.

BOUVET ---> Reidar Bo, LA4BN (President of LA-DX-GROUP) reports that the Norwegian Polar Institute has just issued a discussion document concerning a proposed new legislation on the island making it more difficult or maybe impossible to mount future DXpeditions. The new legislation would prohibit any amateur radio activity from Nyroeya (i.e. the only Bouvet area suitable for DXpeditions) between 1 November and 15 March (i.e. the time frame suitable for DXpeditions) and restrict helicopter use between 15 March and 1 May. The LA-DX-GROUP and the Norwegian Radio League (NRRL) have been invited to voice their opinion: "We need as many responses as possible before February 15, Reidar says. "Please help us with all positive arguments for allowing amateur radio activity on the island in the future." Reidar's fax number and e-mail address are +47 22 27 56 20 and rboe@c2i.net

OPEN UKRAINE RTTY CHAMPIONSHIP ---> It will take place between 22 UTC on 6 March and 01.59 UTC on the 7th (4 hours), on 1.838-1.848 and 3.580-3.620 MHz. QSL 3D2DX ---> Roberto, EA4DX reports that all cards received direct with postage, have been processed, labeled and mailed. If you do not receive your card within a couple of weeks, please contact Roberto (rdiazg@nexo.es). Do not send bureau cards, as QSLs for contacts not confirmed direct will be mailed automatically to the various national bureaus (lease note that this process will not start before July). Logs are available at <http://www.qsl.net/ea4dx/3D2DXlog1.htm> [TNX EA4DX]

QSL 4U1 ---> Masahiro Miura, AJ3M operated from 4U1VIC in Vienna on 28 January and from 4U1ITU in Geneva on 5-7 February. QSL TF3CW ---> QSL manager Norbert Oberweis, LX1NO (lxlno@bigfoot.com) has started getting the logs from Siggi, TF3CW. So far he has received the logs for contacts made up to 1994 and the log for the 5P1ER activity activity during the 1998 SAC Contest. Please note that Norbert says he will not be able to confirm QSOs before early April. [TNX LX1NO]

QSL VIA KU9C ---> Steve Wheatley, KU9C reports that QSL cards for the various XX9 operations in October 1998 (XX9X, XX9TAR, XX9TMC, XX9TNC, XX9TOT, XX9TXD) are beginning to hit the mail. If you sent your QSL with others, this will slow their return to you. Cards for BQ9P, B1A, BT2HC are expected next week, and Steve has freed up his calendar over the next few weeks to devote to processing the direct requests for these cards. [TNX KU9C]

- 3B9 - The Midway-Kure DX Foundation expedition to Rodrigues Island (AF-017) [425DXN 405] will take place between 1 and 10 April. Nine operators will be active on all from 160 through 6 meters. Plans are for up to nine fully equipped HF stations to operate from a number of locations throughout the island. One station will be dedicated to RTTY only. The DXpeditioners are Frank Smith (AH0W/OH2LVG, team leader), Bruce Butler (W6OSP), Kimo Chun (KH7U), Jari Jussila (OH2BU), Victor Keller (XE1VIC), Jacky Mandary (3B8CF), Garry Shapiro (NI6T), Yuuji Yoshitani (JA3IG/K1NT) and Ned Stearns (AA7A) Chief pilot stations will be Andy Chesnokov, UA3AB and Gary McClellan, K7ZD. - 9N - Sergio Curina, IZ6BRN is currently active as AP2WAP from Pakistan. From time to time he will go to Mirmi, near Pakhara (omee 100 kilometres west of Kathmandu), Nepal and has already received his licence. A web site and a log search are expected to be available after the operation. QSL via OH2BN. They have been concentrating on 21295, 14195, 7005 and 3795 kHz, but once the pileups show signs of thinning out on these frequencies, they will begin to operate more on other bands/modes. E44DX will NOT participate in the ARRL DX CW Contest. Instead, during openings to

North America, they will focus on SSB on the traditional bands (particularly on 14 and 21 MHz) and CW on 10, 18 and 24 MHz. Plans were to hit the bands on the 15th [425DXN 406], the delay was due to the need of working out some logistical issues. The call sign has been assigned to the newly formed Palestinian Amateur Wireless Society by the Palestinian Ministry of Posts and Telecommunications (MPT) and the DXpedition is being carried out in cooperation with Ali, E44A and Sami, E44B. There are two stations running at the Palestine Hotel, power has been limited to 400 W or less, due to interference with the hotel's telephone system. Arrangements are being made to leave behind equipment for the new society's club station, assuring continued amateur radio activity from Palestine. [TNX N4GN]

- E4 - Seven members of IARV (International Amateur Radio Volunteers) led by JA1UT are returning to Palestine to complete their aid project for a hospital telecommunications facility. They expect to be QRV by this weekend (20-21 February) and to be active until the end of the month. QSL via JA1UT. [TNX JA8RUZ]

>>> DXCC STATUS OF 9U BURUNDI CONTACTS <<<

The following DXCC News Release, dated 18 February, comes from Bill Moore,

NC1L (bmoore@arrl.org):

"Over the years since 1994, the DXCC Desk has received several pieces of documentation for operations from 9U, Burundi. This documentation was accompanied by license copies, complete with stamps and signatures. However, the DXCC Desk had heard rumors that these documents were in fact forgeries, and not authentic documents. Due to the fact that the operators were still inside the country, and that we did not want to take action that could possibly cause them physical harm, and we knew we would be able to purge these contacts from DXCC records if this was found to be true, cards were accepted until we had the opportunity to investigate after the operators left the country.

This situation came to a head earlier than we expected. The Director General of ONATEL, the communications authorities in Burundi, contacted us by fax inquiring as to whether we had seen licenses from Burundi. After several faxes back and forth, they informed us that the licenses were forgeries. The signature on the documents was that of an official who had not been in that position for some time. The operators were saved from any real punishment other than being expelled from the country, and the entire incident is under investigation by their employer.

Since that time, the DXCC Desk has been rejecting cards for those operations concerned. As soon as it is possible for the DXCC computer program to do so, all contacts from those operations will be purged from the DXCC database. We expect that will happen before March, 1999. This affects all operations since 1994 using a 9U prefix.

The submission of forged documentation is a clear violation of DXCC Section 1, Basic Rule 7, and also Rule 12 (a)."

MOST WANTED ---> According to the Most Wanted List compiled by the Northern Portugal DX Group, the top ten DXCC entities most sought for by Portuguese DXers are North Korea, Bouvet Island, Central Kiribati, MacQuarie Island, Buthan, Johnston Island, Kingman Reef, Andaman & Nicobar, Tokelau and Annobon. The full list can be provided by Jose, CT1EEB (ctleeb@mail.telepac.pt).

QSL E30GA ---> The cards have just arrived from the printer and QSL manager K4JDJ will start sending them out by this weekend. "The printer did make a mistake on the cards and printed them backwards", Bruce (WD4NGB, E30GA team leader) says, "but due to the time already spent, decided to go with these."

QSL EJ7NET ---> All the contacts made by the WestNet and Saltee Dogs DX Groups during their 1998 trip to EU-103 have been confirmed by Tony, EI2GX either direct or through the bureau. [TNX EI6FR]

QSL TU5IJ ---> Marco, IK2CHZ and Aldo, I2AOX logged 4662 QSOs on 10-160 metres SS, CW and RTTY during their 12-23 January activity as TU5IJ from Ivory Coast. They operated from the QTH of Father Martino Bonazzetti (TU5IJ). QSL direct only to I2AOX. [TNX IK2CHZ]

QSL ZS6IR ---> "I apologize to everybody who sent a direct QSL request to my manager DL4EBA between 1 July 1998 and 28 August 1998", Uli, ZS6IR says. "To give my manager some relief I wanted to answer the direct QSLs myself. So I asked him to send the QSLs to my homeaddress. Unfortunately this package disappeared on the postal way, to everybody's distress. I would happily respond to all QSL requests if I could get hold of another QSL card from these stations which are still waiting. Please accept my regrets and send your cards." [TNX K1XN and The Golist]

QSL VIA IK2DUW ---> Antonello, IK2DUW reports he has received the logs for 6K0ZS (Pohang CW Club) and Jang, DS5WKW. QSL to Antonello Passarella, P.O. Box 22, 20051 Limbiate - MI, Italy (<http://www.qsl.net/ik2duw>)

QSL VIA PA3AXU ---> Direct cards for A35XU and 5W0GD should be sent to the following address: G.A.M.C. Dijkers, Dokter P.A. Cornethof 3, 6669AZ

Dodewaard, The Netherlands. [TNX PA3AXU]

+ SILENT KEY + Adrian Sinitaru, YO3APJ reports the sudden passing, on 7 February at 58 years of age, of Andrei George "Andy" Giurgea, YO3AC. Andy was and active DXer on both SSB and CW and a member of the board of the YO national society.

BURUNDI ---> According to Bill Moore, NC1L (bmoore@arrl.org), the list of the 9U calls that will be affected by the purging process from the DXCC database [425DXN 407] "includes the callsigns listed below and may or may not be limited to these: 9U/F5FHI, 9U/EA1FH, 9U5W, 9U5DX, 9U5T, 9U5CW, 9U5DX. Remember, only the contacts dated January 1, 1994 or after do not count. Some have credits before this and these would be OK. 4U9U is OK."

E44DX ---> The E44DX team (OH1RY, OH2BH, OH2TA and W3UR) reached the 30,000 QSOs mark around 16 UTC on 21 February. They went QRT around 5 UTC on the 23rd, after one last push on 40 metres during the E4 night between Monday and Tuesday. QSL via OH2BN. [TNX N4GN]

QSL CE0AA ---> The QSL manager for the 27 February-20 March operation from Easter Island [425DXN 407] is CE3WDH either direct (Sergio Del Gaudio, P.O.Box 240-3, Santiago, Chile) or through the bureau. [TNX CE3CDV and K7BV]

QSL VIA N4XY ---> Ed Tanton, N4XY says: "Bill, WA4VDE recently died. I have assumed duties for all of his old QSL manager jobs. I will know exactly who it is when I have sorted everything out. There should be 15 or more stations. I have all of his old logs. Most of these are very old (70's and 80's) and probably none for the 1990's. I will continue to QSL all the DXpeditions, etc. The logs will be kept indefinitely." [TNX QRZ-DX]

E44/HALAG ---> The 4-member Hungarian team made 40430 QSOs (9971 SSB, 29715 CW, 744 RTTY) in less than nine days. The band breakdowns are (band/QSOs) 160/1579, 80/2817, 40/4956, 30/3557, 20/7876, 17/4084, 15/5926, 12/4480, 10/5155. The stations who were able to work them on all of the nine bands are 262. The log search (<http://www.okdxc.cz/e44>) now covers all 40430 contacts. [TNX PA1AW]

EA RTTY CONTEST ---> It is sponsored by URE (Union de Radioaficionados Espanoles) and will take place (10, 15, 20, 40 and 80 metres) between 16 UTC on 3 April and 16 UTC on the 4th. The rules are available from the Contest Manager (Antonio Alcolado, EA1MV) at alcolado@redestb.es

QSL 1A0KM & HV4NAC ---> QSL manager Francesco Valsecchi, IK0FVC reports that he is used to processing (and mailing) these cards in batches once a week. He can rely on his friends from the Roman DX Club for help and this modus operandi has proved effective. If you do not receive your card(s) within a reasonable time, it is because Francesco has not received your request. He asks DXers to refrain from e-mailing reminders to him, as this cannot speed up the process.

QSL 3V8BB ---> The address of the station is P.O. Box 2055, Bir-El-Bey, Tunisia, but the actual QSL route for 3V8BB depends on the date and time of the QSO, as guest operators have their own QSL routes. Cards for contacts made during the 1999 ARRL DX SSB Contest should be sent via I5JHW.

QSL 5R8PR & 5R8OP ---> Cards have been received from the printer and QSL managers (respectively F6BFH and F6AOI) have started replying to direct requests received so far. Please note that they will pay return postage out of their pockets, as green stamps and IRCs will be used to buy clothes, school books and medicines for the children living in a small village near Antananarivo. [TNX F6BFH and Island On The Web]

QSL H44AL, VK4AFL, VK4BKM ---> Laurie Pritchard, VK4BLE (WIAQ QSL Bureau Manager) has been advised by VK4AFL and VK4BKM that they do not wish to have their QSL cards sent via the VK4 bureau. They will accept only direct QSLs (cards for H44AL are to be sent to VK4AFL). If there are any questions please contact the VK4 QSL Bureau via e-mail (wiaqqsl@powerup.com.au). [TNX VK4BLE]

QSL MANAGERS REFLECTOR ---> It is devoted specifically to active QSL Managers and it NOT intended to be another list for listing QSL routes and queries for QSL information. "This should be a comfortable place for us to share information, resources, tips, experiences, problems and solutions", Larry Wilson, KE1HZ (lwilson@cyberportal.net) states. To join this new e-mail list send a blank message to join-QSL-Managers@XC.org [TNX KE1HZ]

QSL (NOT) VIA NE8Z ---> As of 9 March Rick Dorsch, NE8Z is *no longer* the QSL manager for HC6CR, HD6CR, HC6FG and HD6FG. "Mail theft in Ecuador has made the passing of logs impossible and they are not able to send me logs via e-mail", Rick reports. All past, present and future QSOs can be confirmed via their direct address: Roberto Camacho (HC6CR/HD6CR) and Maricela de Camacho (HC6FG/HD6FG), Casilla 614, Ambato, Ecuador. Please note that NE8Z will continue to act as QSL manager for HC1HC, as Alfredo is able to communicate with Rick via e-mail with logs and/or other information. [TNX NE8Z]

QSL VIA WA5KBH ---> George Carr, WA5KBH reports the mail forwarding from the United Kingdom for QSL cards to his UK calls has expired. Cards for G0WEW and G0/WA5KBH now go to his stateside address. George was in the UK between 1990 and 1996. [TNX WA5KBH]

+ SILENT KEY + It was with the greatest sadness that we have learnt of the sudden passing of Ajarn Chamlong Chuathai, HS1AAM, Vice President of the Radio Society of Thailand (RAST), on 16 March. Chamlong was an energetic leader who organised many amateur radio events in Thailand, such as conventions (SEANET), amateur radio special events, nets and IOTA DXpeditions to the Thai Islands. He was a much respected teacher who helped many Thai amateurs to obtain their licenses. [TNX HS0/G3NOM]

- ZS - Do not expect Rudi, ZS6VER to be active from Seal Island (AF-077) very soon [425DXN 412]. "Because of weather conditions over the next few months, it is winter over here, it would not be a good idea to go south so we will be spending some time on the east coast to get to know the yacht", he says. "We hope to move in the direction of Knysna/Mosselbay in September when the worst storms are over. I believe choosing the right weather window for the visit would be crucial but that would make predicting the actual dates of the operation very difficult". In the meanwhile he is working to get the necessary landing permission. Rudi, ZS6VER/V51VE and Katti, ZS6KVR/V51KV will be voyaging all around the world for at least 8-10 years... <<< FAREWELL TO A FRIEND >>>

The RSGB DX News Sheet, one of the many creatures of the late Geoff Watts, has been a most valuable source of DX information since 1962. The RSGB has now decided that with effect from 30 June 1999, the Society will no longer be producing the DX News Sheet due to a diminishing number of subscribers. At the same time Chris Page, G4BUE, current Editor of the DXNS, says he is not in a position to be able to take the DXNS on completely. We are sad to see the ending of this prestigious bulletin, with which we have had the pleasure to co-operate for years, on the basis of a most fruitful mutual exchange of information - THANK YOU, CHRIS from the very bottom of our hearts.

- 3B9 - The 3B9R team on Rodriguez (AF-017) have been active since 22.00 UTC on 31 March and fully operational since 4 April. Tropical cyclone Frederick appeared to be heading towards the islands but it did not hit hard. So far around 35,000 QSOs have been made (1,000 on RTTY) and it is hoped to end up with 40,000 in the log. The operation will close down at 22 UTC on 10 April. QSL via N7LVD.
- 3D2 - Craig, 3D2TC is now QRV on 6 metres with 100 watts and a dipole. He checks 28.885 and monitors 50.110; with an opening, look for him on SSB at 50.115. Craig is usually on after 05.30 UTC weekdays and when available on weekends. QSL direct to Craig Thompson, 50 Beach Road, Suva Point, Suva, Fiji Islands. [TNX W7TSQ]
- 4U1ITU - Paul, K9NU plans to be active (on 10-80 metres SSB and RTTY) from 4U1ITU at the International Telecommunications Union in Geneva between 10 and 12 April. QSL via the bureau. [TNX The Daily DX]
- 4U1ITU - Eric, W3DQ will be in Geneva between 16 and 25 April and plans to operate from 4U1ITU in his free time after 19 UTC. He hopes to be active on RTTY and 12, 17 and 30 metres. QSL via the bureau. [TNX The Daily DX]
- 5N - 5N99 is the special prefix used in April by amateurs in Nigeria to celebrate the Under 21 Football (soccer) World Championship. 5N9CEN is therefore active as 5N99CEN (QSL via IV3VBM), while Stan, 5N0/OK1JR is now active as 5N99MSV (afterwrds he will operate as 5N0MSV, QSL via OK1JR). [TNX IV3VBM and The Daily DX]
- 9N - K4VUD's Nepal call [425DXN 413] has been changed. As foreign visitors are now designated with a 7, Charlie's call is 9N7UD (not 9N1UD any longer). [TNX N4GI]
- 9V - SARTS in conjunction with the Singapore Armed Forces will operate special event station 9V1GYL at the Singapore site of the original British Royal Navy station GYL (this was the call used in the Commonwealth Area Scheme which has now been closed). Operations will

take place on 10 and 11 April; plans are to concentrate on CW (14050 and 21050 kHz +/- 10 kHz), but SSB will also be used as conditions permit. Special QSL via the bureau. [TNX 9V1RH]

- A3 - Paul, A35RK is now QRV on 6 metres with 100 watts and a beam. He checks 28.885 and monitors 50.110; with an opening, look for him on CW at 50.120. Paul is on whenever he is available weekdays and weekends. QSL via W7TSQ. [TNX W7TSQ]
- BY - BA1AA, BA1AB, BA1DU, BA1OK, BA1RB and others will participate in the Japan International DX CW Contest this weekend from BY1PK, the official station of Chinese Radio Sports Association. QSL via P.O.Box 6106, Beijing 100061, China. [TNX BA1DU]
- DU - Bernhard Stefan, DL2GAC is now in the Philippines and plans to operate as DU2/DL2GAC from Batan Island (OC-093). Nothing is certain yet and his success will depend on getting the licence, suitable transportation from and to Manila, power supply situation on the island, etc. However his target is to arrive between 12 and 15 April and operate for about 7 days. QSL via DL2GAC preferably through the bureau. [TNX 9V1RH]

BY1DX [425DXN 412] ---> The following is an abstract of a message received from Ban ZhiGang, BALMK (Chairman, Beijing DX Club): "BY1DX is licensed to 'Beijing Chaoyang Youngsters' Center of Science and Technology'. It is located in the 7 story building of the Center at the East edge of Beijing city. As identical the same as other existing 80 club stations of Youngsters' centers, schools and universities in China, the main goal of BY1DX is to promote the young students' interests in radio technique, and also may accept foreign operators for guest operation, whenever arrangement is practical, and if the visitor hold operating certificate from CRSA. We do appreciated the kind sponsorship from Nokia (China) for our friends and kids here. However, it would be not true if we say 'it is first-ever foreign corporate sponsored amateur radio club in China', because since 1981 several dozens amateur radio club stations in China have been established under the kind sponsorship from foreign amateur radio organizations, clubs, companies, publishers, and individuals in the same way."

QSL ZL9CI ---> QSL manager Ken Holdom, ZL2HU (Box 56099, Tawa, New Zealand) reports the cards were received from the printer on 10 April. A six-member team has started replying to the requests received through 31 March (9,200+ envelopes) and they hope these cards will be processed and mailed within 30 June. QSL cards received after 31 March will be processed immediately after the above 9,200 envelopes. QSL cards received via the bureau (or those which do not include the necessary postage, return envelopes etc) will be processed when time permits. "If you have sent cards both directly and thru the buro", Ken says, "I would appreciate your brief NEW message to this effect and I will endeavour to eliminate duplicate responses when we process the BURU cards." Ken's e-mail address is z12hu@clear.net.nz [TNX ZL2HU]

QSL VIA G3VMW ---> Steve, G3VMW reports he has despatched all direct QSLs received so far for his recent C56SW operation from The Gambia. Cards with no return postage have been sent via the RSGB bureau together with all bureau and e-mail requests. Steve also has the logs for his 1997 & 1998 operations as 5B4/G3VMW, 5V7SW and 9G5SW and would be happy to confirm any outstanding QSOs.

>>> NORTH KOREA <<<<

Martti Laine, OH2BH started being active as P51BH from North Korea around 6 UTC on 21 April (first on CW later on SSB). The short operation ended just before 8 UTC and Martti expected to leave North Korea on Thursday morning (22 April). His aim was to show the amateur radio equipment and concept to the P5 authorities - it was not a DXpedition, but hopefully this may lead to one.

- 6W - 6W1PZ, 6W1EX, 6W1RD and 6W1QP will be active as 6V1A from Goree Island (AF-045) between 00.00Z on 1 May and 17.00 UTC on the 2nd. QSL via ARAS, P.O. Box 971, Dakar, Senegal. [TNX The Daily DX]
- 9K - Members of the Kuwait Amateur Radio Society will be active as 9K2F from Faylaka Island (AS-118) between 22 and 30 April. QSL via 9K2RA (Kuwait Amateur Radio Society, P.O. Box 5240, 13053 Safat, Kuwait). [TNX 9K2DR]
- F - Jean-Marc, F5SGI will be /P from Brehat Island (EU-074) between 25 and 1 May. He will operate mostly on CW with some SSB on 14260 kHz. [TNX F5SGI]
- F - ON6DP and ON7RN will operate from TP50CE (the special event station celebrating the fifty anniversary of the Council of Europe) between 30 April and 2 May. QSL via F6FQK. [TNX OPDX Bulletin]
- H40 - JK7TKE, who was active last week as H4400 from the Solomon Islands, is now active as H4000 from Temotu. The Daily DX reports "he is only able to get on the air during his evenings as there is no AC until then". QSL via JK7TKE.
- I - Amateurs from ARI Casalecchio di Reno will operate as IZ4CUK from Junior High School "Guglielmo Marconi" on 24-26 April. During the International Marconi Day they will also be active as IY4IMD as usual. [TNX IK4NYY]
- JA - Joe, JA4PXE plans to be active (on 10-40 metres SSB) as JA4PXE/6 from Kusagaki Island (AS-067) between 19 UTC on 29 April and 23 UTC on the 30th. QSL via JA4PXE (Syouji Kuwahara, 1-75 Midori-ku, Tokuyama, 745-0075 Japan). [TNX JI6KVR and JA9IFF/1]
- W - Bob, W2SF will be active (on all bands WARC included, CW, SSB and RTTY) from Lower Matecumbe Key in the Florida Keys (NA-062) between 23 April and 7 May. [TNX OPDX Bulletin]

- XU - Jani, YB0US will be active (on 6-80 metres) as XUAAP (no number) from Cambodia between 22 and 26 April. QSL via N200 (Bob Schenck, P.O. Box 345, Tuckerton, NJ 08087, USA). [TNX N200]
- YB - After a couple months of inactivity, Ovy, YC8VIP, is back on the air as YC8VIP/7. He does not operate from Ambon any longer, as he now resides in Banjarmasin, Kalimantan (OC-088). QSL via W6MD either direct or through the bureau (bureau cards are answered once a year): all direct cards for contacts until December 1998 have been answered, W6MD is waiting for the January logs. [TNX W6MD]
- YB - Joni, YC9WZJ is active from Sorong, Irian Jaya (OC-034). QSL via W6MD, either direct or through the bureau. [TNX W6MD]
- ZL - Ed, K8VIR/ZL4IR will be active from Stewart Island (OC-203) between 24 April and 1 May. QSL via W8WC. [TNX The Daily DX]

INTERNATIONAL MARCONI DAY ---> The event is sponsored by the Cornish Radio Amateur Club and it will take place between 00.00 UTC and 23.59 UTC on 24 April. Please visit <http://www.users.globalnet.co.uk/~straff/> for the list of Marconian stations which are expected to participate in the event.

3B9R ---> The 31 March-10 April 3B9R operation from Rodriguez (AF-017) logged over 47,000 QSOs. It seems there was some pirating of 3B9R on 160 metres after their sunrise QRT: according to Garry, NI6T the last contacts on top band were made at 02.01 UTC on 5 April (with KD9SV), at 01.41 UTC on 6 April (with UY1HY), at 01.56 UTC on 7 April (with K4EA), at 01.58 UTC on 8 April (with K1BW), at 00.40 UTC on 9 April (with UA9FAR) and at 00.14 UTC on 10 April (with OM2XP). QSL via N7LVD. [TNX DX News Sheet]

6A1A ---> For the readers who have asked: this station was activated for the second time on 24-25 April by Tarek Abdallah (SU2TA/6A1TA), Said Kamel (SU1SK/6A1SK) and Hossam El Shenawy (SU1HM/6A1HM) operating from Sharm El Sheikh in the Sinai peninsula, Egypt. QSL via F5KAM.

C91RF ---> Rei, DL6DQW/C91RF reports he was active from Maputo on 23-25 March and 29-30 March (1600 QSOs), while his activity from Benguerua Island (AF-072) took place on 26-28 March. Power supply on the island was available only between 6.00-12.30 and 14.00-20.00 local time, but he was able to log some 1000 QSOs. [TNX The Daily DX]

DU1/DL2GAC ---> Bernhard, DL2GAC is back home in Germany. He was unable to get to Batan Island (OC-093) in the time he had available because of changes in reasonable transport arrangements. Bernhard only operated from the Calamian Group (OC-090) for a couple of days on this trip. He did not work too many EU stations but had more success into North America. [TNX 9V1RH]

LT5V ---> The new address for the North Patagonia DX Group (LT5V) is P.O. Box 37, 8332 General Roca, Rio Negro, Argentina. This address can be used also for LU8VCC (Alex), LU7VFJ (Julian) and LU3VED (Martin). [TNX LU8VCC]

P51BH ---> Martti Laine, OH2BH was active as P51BH between 14.36 and 16.40 Korean Time on 21 April. The operation covered 14 MHz CW and SSB plus 21 MHz SSB, and 263 stations got through. The first JA QSO was JA2DO, Europe OH5MBF,

Oceania KH6WU and the United States W6WKE. The documentation will be sent to the ARRL shortly. QSL via OH2BH (Martti J. Laine, Nuottaniementie 3D20, 02230 Espoo, Finland). Audio from this operation can be heard at <http://www.qsl.net/9k2hn>

This was Martti's sixth visit to North Korea. "While discussing the future of amateur radio in a longer term perspective", he says, "an immediate allowance was made to test the equipment": the operation took place from the telecom center premises, "with North Koreans climbing a 150-ft. tower to hoist the antennas. The antennas were left right there together with the Yaesu FT-847 equipment. It is just a matter of switching the power on - when the time is ripe - to allow North Korea to join the ranks of amateur radio". No advance information was given because, Martti says, "during these several years of DX missionary efforts, it has become obvious that if you are able to work on a project in peace, the best overall results will be achieved. Many major efforts are typically hampered by competing forces who have a hard time accepting the success of others". [TNX N4GN]

QSL 4M5I ---> Luis, YV5ENI says that his QSL manager (IK6SNR) will reply to all direct requests for the recent 4M5I operations from Los Monjes (SA-015) and La Blanquilla (SA-037) within June. [TNX YV5ENI]

QSL CQ2S ---> This special station was activated by Vic, CT1AXS and Jorge, CT1FMX on 24-25 April to celebrate the 25th anniversary of the 25 April Revolution in Portugal. Cards are via CT1AXS (SSB contacts) or CT1FMX (CW and RTTY contacts). [TNX CT1AXS]

QSL E4/G3WQU ---> Peter, E4/G3WQU reports some difficulties with incoming QSL cards: "Callbook 1999 gives an address in Jerusalem, but as the call is G3WQU, the country is shown as England. I have been receiving some addressed 'Jerusalem, England, UK', but only because the post office in UK is vigilant. Note please that Jerusalem is in Israel". At all events, his new and correct address is Peter McKay, UNIFIL, P.O. Box 75, Nahariya 22100, Israel.

QSL EK7DX ---> Karen, EK7DX is currently using F5LGQ's address for direct cards. Please note that F5LGQ is NOT the QSL manager for this station - he just collects the envelopes and send them to Erevan through a different route. He asks DXers to write "EK7DX" on the envelopes, which should be sent to Daniel Barot, 5 Rue de la Coix Mouclet, F-79400 Exireuil, France (no bureau cards please). [TNX F5LGQ]

QSL FT5ZH ---> Gil, F5NOD reports some 25 kilograms of FT5ZH cards have just been mailed. Hopefully all direct cards (some 9000 received so far) will be processed within the end of May. QSL via F6KDF.

QSL IY5PIS ---> The QSL manager for this special Marconian station, which was activated by ARI Pisa during the International Marconi Day, is IK5QPZ (either direct or through the bureau). [TNX IK5ZTT]

QSL VK9XX & VK9YY ---> Charlie, W0YG reports that "all QSL cards received direct have been answered. I keep current each day with QSL requests for both stations. I am receiving many QSL requests WITHOUT return envelopes. Cards received in this way will be answered through the bureau."

QSL VQ9CV ---> Please note that cards should be sent to ND1V's most current address, which is Robert Wright, 1409 Eaglestone Arch, Chesapeake, VA 23322, USA (the address in the latest callbook is no longer any good). [TNX ND1V]

QSL VIA OZ1PIF ---> As of 1 April 1999 Peter, OZ1PIF is the new QSL manager for OX3LG, OX3LX and OX3UB. [TNX OZ7C]

>>> 1999 IOTA LISTINGS <<<

Compiled by RSGB IOTA Manager Roger Balister, G3KMA, they are now available (by courtesy of RSGB RadCom) at <http://www.425dxn.org> and include the Honour Roll, the Annual Listing, the SWL Listing and the *new* Club Station Listing.

>>> ITALIAN ISLANDS AWARD <<<

The IIA List has been updated and is now available at <http://www.425dxn.org> - it includes the IIA islands listed by Reference Number with, when applicable, their relevant IOTA group.

HAM RADIO 1999 ---> The biggest amateur radio event in Europe (some 20,000 visitors) will take place at Friedrichshafen, Germany between 24 and 26 June. For further information please visit <http://www.uni-erlangen.de/~unrz45/BCC> (the web site of the Bavarian Contest Club) and <http://www.messe-fn.de/ham>, while IOTA enthusiasts who plan to attend the IOTA Meeting on 25 June are invited to contact Hans-Georg, DK1RV (DK1RV@t-online.de) [TNX DF4RD]

HR1RMG ---> In a recent e-mail message Rene reported that, due to hurricane Mitch, a few requests for his H76C operation from NA-212 may have been lost. If you have not received your card, please send a second request to Rene Mendoza Garay, Col. Las Colinas BL. RR casa No. 2006, Boulevard Francia, Tegucigalpa, Honduras. He also mentioned to be planning six IOTA operations this year: from NA-057, NA-060, NA-035 (the Most Wanted Swan Islands), NA-160 and two unnumbered groups, one in Honduras and one in Guatemala. Detailed information is expected in due time.

IIA ---> Gerry, IZ8ANA and Virgilio, IC8OZM were active as IC8/IZ8ANA and

IC8/IC8OZM from Vivara Island (EU-031, IIA NA-005) on 1 May. Gerry was also active mostly on CW (in the evening and nights hours on the 1st and in the morning hours on the 2nd) from Procida (EU-031, IIA NA-002). QSL via IZ8ANA (Gerardo Santucci, P.O. Box 71, 81054 San Prisco - CE, Italy) and IC8OZM (Virgilio Sabetta, Via Cavour 47, 80079 Procida - NA, Italy). [TNX IZ8ANA]

QSL EU-020 ---> Eric, SM1TDE reports the cards for SK1BL (SAC SSB, September 1998, 1268 QSOs) and 7S1BL (1 August-31 December 1997, 5180 QSOs) operating from Gotland Island (EU-020) have all been sent through the bureau.

QSL SM1TDE/4U ---> Eric, SM1TDE made 8017 QSOs on CW and 38 on SSB as SM1TDE/4U while stationed in Lebanon in 1993-94. Over 3800 QSLs have been sent either direct or via the bureau during the last five years: now he has only 154 printed cards left and he will close the log when he runs out of them. If you still need his card, please send you request to Eric Wennstrom, Vasagatan 9-324, SE-172 67 Sundbyberg, Sweden or ask for a bureau card (e-mail requests are welcome at smltde@grk.se). [TNX SM1TDE]

WHERE TO GO NEXT? ---> Ken Holdom, ZL2HU (Group Organiser & Team Leader of the Kermadec Dx Association) would like to give "all serious DXers the opportunity of suggesting a 'next' country for activating. Consideration is being given to the Pacific and more to the point the following: T30, T31, T32, T33 or ZK3". Please e-mail your constructive suggestions to zl2hu@clear.net.nz

>>> OPERATION DOUBLE TROUBLE <<<

It is being organized by Mats, 5X1Z/SM7PKK in order "to give the deserving around the world a chance to work two rare locations": Central Kiribati (T31, OC-043, between 23 September and 3 October) and Tokelau (ZK3, OC-048, between 7 and 12 October). Six operators will be active with three 1KW stations (one for SSB, one for CW, one for WARC/Lowband/RTTY), beams for the higher bands (WARC included) and verticals for the low bands. The vessel transporting the team has already been secured; the rough budget for this DXpedition is around US\$ 30,000 (donations from Clubs and Foundations are welcome). [TNX 5X1Z/SM7PKK] - See OPERATORS NEEDED below

EP/RA6LGM ---> Latest reports from Russia indicate that this station, who has been quite active recently asking QSL via RV6LAH, is most likely to be a pirate. [TNX UA9AR and The Daily DX]

GEORGIA ---> Omari, 4L50 reports that there are two autonomous republics within Georgia: Abkhazia (ex UF6V) with the prefix 4L1-4L0 followed by a suffix beginning with the letter V, and Adjara (ex UF6Q) with the prefix 4L1-4L0 followed by a prefix beginning with the letter Q. Edited by I1JQJ & IK1ADH

6 METRES ---> Andy Lillevars, ES2NA reports the following stations from Estonia are now active on the band: ES1AJ, ES1CW, ES1II, ES1MW, ES1RF/3, ES2NA, ES2QH, ES2QN, ES2RJ, ES2WX, ES3BR, ES4NG, ES6PZ, ES0HD.

P3A AWARD ---> It is issued for contacts made on different bands with P3A in contest starting on 1 January 1999. For further information please contact the Award Manager Alex Vedernikov, UA9YAB (P.O.Box 120, Biysk, Altajskij kraj 659300, Russia) at europa@biysk.nsu.ru [TNX UA9YAB]

PIRATE ---> A station signing T22QO was active on 23 May around 18 UTC (15 metres CW) and gave QSL via K7ZO, but Scott (K7ZO) knows nothing about this operation. [TNX DL6KVA]

QSL BUREAU ---> Effective 1 June 1999 the new address of the KH6 QSL Bureau is P.O. Box 860788, Wahiawa, HI 96786-0788, USA. [TNX The Daily DX]

QSL 8P6AW ---> The QSL route for 8P6AW is *not* via WB4RRK or K1XN. John, K1XN suggests that requests for this club station should be sent to the Amateur Radio Society of Barbados, Box 814-E, Saint Michael, Barbados. [TNX John K1XN and The Golist]

QSL EK ---> Giancarlo, IK7WUJ has received his direct card from EK4JJ (Serge K. Mnatsakanyan, 9A/33, 2 Noriki Massiv, Yerevan 375062, Armenia), who states he QSLs 100% when sufficient return postage is provided. He says current postal rates in Armenia are very expensive, which means 2 IRCs or 2 green stamps (at least for Italy).

QSL EZ8CW ---> Please note he has *no* QSL manager, cards should be sent direct only.

QSL UN ---> Nick, UN7JX says he is used to replying to QSL requests within 24 hours from receipt. If you have not received your card after three months, it is most likely because of the known "problems" with the postal service. Now Nick wants to bring an action against the post office: "I need some kind of document that proves that your letters never made it to their intended address. If you have some way of obtaining some kind of receipt, stamp or registration that proves you sent a letter, this would be excellent. FAX: (7-3232) 475866, E-mail: un5j@ukg.kz" [TNX UN5J]

QSL YU ---> Ed, YZ7ED reports that YU amateurs have not been able to get any QSL for one month, as both "the QSL Bureau and the Post Office do not work" because of the war.

QSL ZV0SB & ZV0SW ---> Paulo, PT2NP reports QSL manager PT2GTI (Roberto Stuckert, P.O. Box 09647, 70001-970, Brasilia/DF, Brazil) has started sending out the cards for ZV0SB and ZV0SW (March 1999 DXpedition to St. Peter and St. Paul Archipelago).

QSL VIA LY1FF ---> Law, LY1FF reports he is the QSL for 4L8T *only*. Cards for LY8X [425DXN 418] go via LY1BZB *only*.

QSL VIA NE8Z ---> Rick is the *new* QSL manager for HC1OT, HD1OT, HC1OT/HC8 and HD9OT. The old QSL manager (K8ZZ) will give Rick the cards sent to him in error. [TNX NE8Z]

QSL NOT VIA KA7NOC ---> Steve Hurst, KA7NOC has received cards for this station over the last five years, but he is *not* the QSL Manager for YU1OJ. He *was* the QSL manager for YU1PJ several yers ago, but he has not heard from Zoran since the early '90s. For further information please visit <http://www.magiclink.com/web/shurst> [TNX K1XN and The Golist]

CY9RF ---> Original plans were for a major operation, with a team including W6RGG, W6BSY, K4LT, AC8W, K8DD and K8RF who were to participate in the WPX CW as a Multi-Multi entry [425DXN 419]. Some transportation problems in getting the original complete six-station setup to the operating location caused four team members to give up, and Dan, K8RF and Doug, K4LT ended up going by themselves. They made 1500-2000 QSOs before and after the contest, in which they participated as a Multi-Single (4840 QSOs). A constant S9+20DB noise from the generator prevented Dan from operating on his favourite band (160 metres). QSL via K8RF (Dan Flaig, 2101 Ronaldson Ave., Cincinnati, Ohio 45230-1510, USA). [TNX K8RF]

QSL 2S0PNS ---> Please note that cards should be sent to Jeff, G3LWM (not LWN as reported in 425DXN 421).

QSL JT1Y ---> Nicola Sanna, I0SNY reports he has started replying to requests received for the April 1999 JT1Y operation (24320 QSOs).

QSL OD5SB ---> PA3FWP reports he is returning to Italy. Therefore all QSL traffic for OD5SB must be routed from now on via his Italian callsign, I0WTD. QSL sent via bureau shall be received anyhow, but direct cards may have problems if sent after June 1999. [TNX I0WTD/PA3FWP]

QSL V63KU ---> As Sam, V63KU will go QRT from Truk at the end of June, his P. O. Box in V63 will be closed. Please ask for your QSL via JA6NL through the Japanese bureau. [TNX IZ0AEH]

QSL VIA NU4N ---> Dave, NU4N is the new QSL manager for Chris, WL7KY and Mats, LU9AY. He reports all cards for WL7KY have been sent out; he is still waiting for the LU9AY, CP6/LU9AY and L29AY cards from the printer, but they are expected to arrive within 1-2 weeks. QSL to David W. Tucker, 1500 Massac Church Road, Paducah, Kentucky 42001, USA. [TNX NU4N]

QSL VIA VE1AL ---> Alan Leith, VE1AL says that "For many reasons, I have decided to no longer use the QSL Bureau system to receive and distribute QSLs for either my own VE1AL contacts or those of stations for which I am the QSL Manager. I will be pleased to respond to ANY QSL request sent to me directly, with proper return postage". Alan is the QSL manager for CF1AL, CG1AL, CG1B, CJ1AL, CK1AL, CY9DXX (1988), CY0DXX (1989), FP/VE1DXX, FW0DD (1979), VA1S, VE1AL, VE3AII/SU (1974), VE3FRA (1978-1988), VE3VX, VE6CBJ/SU (1974-75), VF1L, VX1AL, ZK2DD (1979), ZK2DJ (1979) and ZK2YL (1979).

CEPT & IARP ---> The following is taken from the ARRL Bulletin 38, 8 June 1999: "The FCC has implemented the European Conference of Postal and Telecommunications Administrations (CEPT) Recommendation T/R 61-01 that eliminates the need to obtain a special license or permit for US hams wishing to operate during brief visits to most European countries. In addition, the ARRL has begun issuing International Amateur Radio Permits to simplify operation by US hams in certain South American countries. Complete information on CEPT and IARP operation, including an IARP application form and a copy of the FCC Public Notice on CEPT, is available at <http://www.arrl.org/field/regulations/io/>"

DX CONVENTION ---> The 1999 PACIFIC NORTHWEST DX CONVENTION is sponsored by the Willamette Valley DX Club and will be held in Clackmas, OR between 30 July and 1 August. For further information please visit <http://www.qsl.net/wvdx/dxconv.htm> or e-mail Jim Fenstermaker, K9JF (jfenster@pacifier.com). [TNX K9JF/7]

DX CONVENTION ---> The 8th NEW ORLEANS INTERNATIONAL DX CONVENTION will take place on 27-29 August. An advanced registration form and information on reservations is available on the Convention website at <http://www.gnofn.org/~w5ru/> [TNX W5FKX]

IREF ---> Neville Cheadle (G3NUG), Jose de Sa (CT1EEB), Taizo Arakawa (JA3AER), Don Chamberlain (W9DC), Mike McGirr (K9AJ), Buzz Jehle (N5UR) and Buzz Loeschman (N5FTR) are the directors of the newly established Island Radio Expedition Foundation, Inc. [425DXN 420]. The officers are Mike Crownover (AD5A, President), Michael Crownover (AB5EB, Vice President) and Charles Allen (W5DV, Treasurer). A Secretary is still needed, if you interested please e-mail AD5A (ad5a@sat.net). Further information on IREF, as well as membership forms and applications for financial support, are available at <http://www.sat.net/~iref> [TNX AD5A]

QSL E4/OK5DX ---> Please note that the correct QSL route is via OK1TN (*not* OK1YN as reported in 425DXN 422). We apologize for any inconvenience this may have caused our readers.

QSL EP2FM ---> The Daily DX reports that Abdollah "has found that mail to his P.O. Box may not be the best route". Try with his home address: Abdollah Sadjadian, 36, Hayamanesh, Dabestan St., Resalat Highway 16316, Tehran, Iran.

QSL MU2K ---> The Guernsey Amateur Radio Society (GARS) used this special contest call in this year's WPX CW Contest. The call was used by GUS together with a group of ONs (also members of GARS) and QSL is either to GU3HFN or, preferably, to ON4ON. [TNX GU0SUP]

QSL PX8DX ---> Cards for this station, operated by PY8AZT during the recent WPX CW, should be sent to either P.O.Box 71, Belem-PA, 66000-970, Brazil or via PY8AA. [TNX PY8AZT]

QSL XV300S ---> The following comes from Rob, KD7H: "Steve, K2WE has been given, over the air, as the QSL manager for XV300S (Vietnamese operator). Unfortunately, according to Steve, when he was in Vietnam recently, he could not find the XV300S logs and no one knew where they were. He has received about 300 requests for cards, but, at the present time, can do nothing about it. Again, this was for the previous XV300S operation with a local operator".

QSL YU ---> Contrary to what reported in 425DXN #421 (the information came from YZ7ED), Igor, YT1MM states that "the YU QSL bureau is alive and working (it is operated by Petar, YT1WW), and Yugoslav post office works properly, as letters for all countries in the world are regularly accepted, despite the present circumstances (and the letters DO arrive to their destinations, like Canada,UK, Japan etc.). My radio club (YU1EXY) receives LOT of mail, so I have first-hand proof for my statements. On the other hand, it is a well known fact that a number of countries (like USA, Great Britain and Germany, for example) simply suspended accepting any kind of mail destined for Yugoslavia since early April. Some other countries, like Japan or Hungary accept letters for Yugoslavia and such mail regularly arrives, albeit with a slight delay." [TNX YT1MM]

SWL-DX ---> This mailing list is managed and moderated by Al, PY2ZX (jba@dglnet.com.br) and it is specifically devoted to SWLs who enjoy DX. In order to subscribe, send a message to swl-dx-subscribe@egroups.com and leave the "subject" and the body of the message in blank. [TNX PY2ZX]

+ SILENT KEYS + Both Dick McKercher, W0MLY and Iris Hayes, ZS2AA passed away on 31 May. A top DXer and an IOTA enthusiast, Dick operated from several African countries in the 50s and 60s, while 96-year-old Iris Hayes was the first YL amateur radio operator in South Africa in 1937. >>> FIRST TRANSATLANTIC 2M CONTACT <<<

Beginning on 26 June and continuing until 4 July, two groups of amateurs will attempt to make the first transatlantic 2-way contact on 144 MHz and win the Brendan Trophies (<http://www.irts.ie/brendan.htm>). The group in Scotland (led by Bill Ward, GM0ICF) will be signing 2S0ICF/p from the lighthouse at Ardnamurchan Point, while the group in Canada (led by Paul Piercey, VO1HE) will be signing VO1AA from Cabot Tower, the site where Marconi received the first transatlantic signal in 1901. They will operate on +/- 144.075 MHz at 15-18 wpm CW. One station will call the other for a 15 minute period then, if no contact is made, the other station will call for 15 minutes. All on-air operations will be recorded electronically. Operating times will be between 12.00 and 20.00 UTC daily for the entire period, but most likely not the entire 8 hours per day. "We encourage stations on both sides of the Atlantic to join us in this attempt", Paul (VO1HE) says, "either to make contact with us or give us propagation reports". You can send your reports to Paul at volhe@rac.ca [TNX VO1HE]

3V8DJ ---> Giovanni, I5JHW reports some 5550 QSOs on SSB, 750 on CW and 110 on RTTY were logged in 33 hours from Jerba island (AF-083/p). Some bureaucratic problems prevented the operators from starting the activity before 17 (local time) on 19 June. Eventually they were allowed to operate on

40, 20 and 15 metres with 100 watts from the Centre de Stage et Formation Continue located on Jerba. QSL via I5JHW either direct (Giovanni Bini, Via Santini 30, 51031 Agliana - PT, Italy) or through the bureau.

ARAC is applying for the callsign 9Q0AR, and 18 individual 9Q1 (Kinshasa) licence applications are presently being submitted to the licencing authority. 6 METRES ---> Jimmy, W6JKV and Dick, K5AND are planning their next 6 metres DXpedition which is planned for October 1999. They could go to Western Pacific (Yap, V63), West Africa (S92) or the Caribbean (J8, J7 or J3). Jimmy has asked Chris, G3WOS to undertake a poll to see what the 'hot' countries are - let him know your suggestions for these three regions by e-mail at g3wos@uksmg.org [TNX IW1DIM]

LIGHTHOUSE WEEKENDS ---> A list of stations participating in the National (7-8 August) and International (21-22 August) Lighthouse Weekends is maintained by Jim Weidner, K2JXW at <http://www.waterw.com/~weidner/ld.htm> [TNX K2JXW]

OOOPS! ---> The 3COR DXpedition to Annobon Island (AF-039) is scheduled to take place between 14 and 24 SEPTEMBER (not July, as mentioned in 425DX 428!). Thanks to Des, G3LCS for detecting the typo.

PSK31 ---> Maury, I1-21171/IZ1CRR reports a lot of activity over the last few days with several DX countries being heard in Europe (DU, VQ9, LU, PS, ZS, FR, FG, HK, VP5, XE, CX, KP, VK, ZF, V7). Three programmes are available for this mode: PSK31SBW (<http://aintel.bi.ehu.es/psk31.html>), MixWin (<http://www.nais.com/~jaffejim>), Logger (<http://www.itis.net/golist>). Usually PSK31 activity takes place on 14.070, 21.080 and 28.120 MHz.

PY1SL ---> Soni, PY1SL reports he is not the QSL manager for S0WW, which is belived to be a pirate (it was spotted on 17 July on 15 metres).

QSL 3D2SJ ---> The address for Fr Steve, 3D2SJ/T30ED is Fr Steve Dives MSC, P.O. Box 1354, Suva, Fiji. Brian, VK5FV reports that "there is no outward bureau operating from Fiji (Box 184 is a receive only address). Fr Steve has received approximately 100 bureau cards and to answer them directly would incur an unreasonable financial penalty".

QSL 5H3RK --> Maurizio, IK2GZU (who was active as 5H3/IK2GZU in February) has received several cards for 5H3RK. Please note that he is *not* the QSL manager for this station.

QSL BY7 ---> Cards for BY7KH, BY7KG, BY7KR, BY7KS for contacts made on 17-18 July (40, 20 and 15 metres) should be sent to P.O. Box 771, Guangzhou, 510120, People's Republic of China. The four calls were used during the 1999 China Amateur Radio Subarea Student Game in DongGuan. All of the operators were teenager students, in most cases novices. [TNX BD7NQ]

QSL E30HA ---> Antoine, F6FNU is the new QSL manager for E30HA for all stations except from the US, which can still be sent to HA5YPP (P.O. Box 1157, H-1245 Budapest, Hungary). [TNX The Daily DX]

QSL MANAGER ---> Marc, F-11734 (Marc Nogent, 60 Rue Foch, 57390 Audun-le-Tiche, France) offers his services as QSL manager. You can get in touch with at MARC.NOAGENT@wanadoo.fr

YI7KRN ---> Bernie McClenny, W3UR, Editor of The Daily DX, reports the following: "Many people are asking about the legitimacy of YI7KRN who has been extremely active since Saturday. Word from the Iraq authorities is that all operations must take place from the club station. The operator (Goran) at YI7KRN is giving his QTH as Saqiz, which is located in the 'Northern No Fly Zone' and is highly unlikely to be legitimate". The address mentioned for QSLing is Box 66815/314, Saqiz, Kurdistan, Iraq.

ZS8D: HELP NEEDED ---> Chris R. Burger, ZS6EZ reports that "the Prince Edward Island Management Committee has refused permission for Deryck Yelverton, ZS8D to erect his tribander on Marion Island. Deryck has been active with a resistively-loaded broadband dipole, but his signal leaves much to be desired. The tribander and amplifier were donated by the NCDXF, and will provide a substantial improvement in signal strength. The tribander is assembled, and ready to be erected if permission is granted". Chris will try to have the decision reconsidered and he is looking for two types of support: 1) Anybody that can supply *substantial information* about the bird strike hazard associated with rotary beams and 2) General shows of support. "If they can see that there really is global demand for activity from Deryck, and that real antennas are necessary, they may relent". Please send your messages direct to Chris at crb@nanoteq.com [TNX The Daily DX]

+ SILENT KEY + CQ Editor Alan M. Dorhoffer, K2EEK became a Silent Key on 19 July at 61 years of age. He started as an assistant editor in 1964 and became the magazine's tenth editor in 1976.

- 70 - The International Amateur Radio Volunteer (IARV) organisation dispatched nine members (including the leader JA1UT) to the Republic of Yemen on 5 August [see "Look out!" in 425DXN 431] until the 19th for voluntary work to establish a hospital communication network in remote areas. The group has donated an amateur radio station to the Ministry of Public Health for use as a club training station. A demonstration has been given. At present the Yemeni engineers are familiarising themselves with the equipment, and listening to amateur radio activity. Due to pressure on the humanitarian project, and the shortage of time for the coaching of the Yemeni engineers on amateur radio operating, it is unlikely that a DX type operation will take place on this visit. [TNX HS0/G3NOM]

[TNX GM4UZY]

>>> CLIPPERTON 2000 <<<

A major all-mode all-band DXpedition to Clipperton Island (NA-011) is being organized to take place from 26 February through 15 March 2000. The motor vessel for the voyage has been chartered and the licence and landing permit have been issued. A multinational team of skilled and experienced operators is being gathered and plans are to have six stations active from two operating camps. Financial assistance is requested to offset the high costs of the DXpedition and donations can be sent to N7CQQ Amateur Radio Club, Inc., P.O. Box 81, Searchlight, Nevada 89046, USA (account 4961527327, Bank of America). For further information please contact John Kennon, N7CQQ at n7cqq@laughlin.net [TNX N7CQQ]

- 3B8 - PI4CC contest group members PA3EPD, PA0VHA, PB0AIT and PE1ALV will be 3B8/home call from Mauritius Island (AF-049) between 23 September and 10 October. FAKES ---> Michael Bondarev, UA6LU (President of Rostov-on-Don region radioclub) reports the "official information" coming from the local licencing authorities about RV6LAH, whose licence has not been "released to anybody". RV6LAH has been claimed as the QSL manager for EP3LAH, EP/RA6LGM and EK1X: save your time and money!

MOST WANTED SURVEY ---> Carl Smith, N4AA is conducting the 1999 DX Magazine Most Wanted Survey. If you want to send Carl the ones you need, please visit his web site at <http://www.dxpub.com> and from the home page go directly to the survey. The results will be published in the January/February 2000 issue of The DX Magazine. They will also be posted to the web site around 1 February. [TNX N4AA]

QSL 1A0KM & HV4NAC ---> QSL manager Francesco Valsecchi, IK0FVC reports he is receiving several complaints, especially from the U.S., about his QSLling for these two stations. Francesco (often helped out by Ugo, I0CUT) usually mails the cards from the Vatican Post Office once every 30/45 days and if you do not receive your card(s) within a reasonable time, it is because he has not received your request. He is aware some problems occurred with the Italian post administration and last week he went personally to the Post Office to complain. If you are still waiting for your card(s), please send him another request - do not enclose any green stamp or IRC, just a SAE. [TNX IK0FVC]

QSL 8Q7AM ---> Jose, EA5MB reports he is the new QSL manager for 8Q7AM. He has the logs from 1994 (available at <http://www.ctv.es/USERS/ea5mb>).

QSL P29VHX ---> Uwe, DJ9HX made 8280 QSOs during his recent trip to four Papua New Guinea groups: 2330 from OC-153, 2558 from OC-008, 906 from OC-025, 2486 from OC-034. He expects to process direct cards before Christmas. Bureau cards can be requested at uwe.jaeger@fh-heilbronn.de [TNX DJ9HX]

QSL YI1AK ---> Cards for contacts made before 4 December 1996 should be sent direct to A. Karim Hadi, P.O. Box 7476, Baghdad, Iraq as Russ, AD5W does not have any logs before that date. [TNX The Daily DX]

QSL VIA PA3GIO ---> Cards for S79GI and all of Bert's operations should be sent to PA3GIO either direct (Bert vd Berg, Parkln 38, Woudenberg 3931 KK, The Netherlands) or through the PA bureau. Do NOT use his address in the U.S.!

T32DT ---> Helmut, DL9MFU reports he is not the QSL manager for this station.

ISLANDS (OZ) ----> Jens, OZ5MJ reports the QSL card for OZ3FYN/L (operation from Keldsnor Lighthouse on Langeland, EU-029) has a wrong DIA (Danish Islands Award) number: it is not FY001 but FY019.

ISLANDS (VK) ---> The VK9RS team on Imperieuse Reef, Rowley Shoals (OC-230) went QRT at 17.41 UTC on 25 September after some 10,800 QSOs. After that Mal (VK6LC/VK6ISL), Sam (CT1EEN/VK6EEN) and Jim (K9PPY/VK8PY) operated as scheduled from Malus Island (OC-199, 2,000 QSOs) and Green Island (OC-183, 2,000 QSOs). [TNX CT1EEB]

PS2V ---> A special award (price 3 IRCs) will be issued to those SWLs who can copy this station on at least three different bands. PS2V is scheduled to be active from Vitoria Island (SA-028) on 8-12 October [425DXN 439]. Send your request to PY2AA. [TNX PY2ZX]

QSL 9NxUD ---> K4VUD has now replied to all the direct QSL requests that arrived for both 9N1UD and 9N7UD. If you do not receive your card by 1 November, please send another request to Charles Harpole, 3100 N. Hwy. 426, Geneva, FL 32732, USA. Please note that he all of the remaining contacts will be confirmed automatically through the bureau on 15 November. [TNX K4VUD]

QSL CX3AL ---> Leo Correa, CX3AL reports that "the mailing cost of one letter

from Uruguay is around U\$S 1.50. A lot of stations are sending SASE to me with only U\$S 1.00. During the last two years I have been sending all these request direct and the difference went out of my pocket. By time being, as I am receiving many cards, mainly from my activity in the WARC bands, I can not support it any more. In the future direct requests that not cover full postage charges will be answered through the buro".

QSL R1AND ---> Ed Kritsky, NT2X is NOT the QSL manager for RW1AI (operating at R1AND) but has offered to collect QSLs for Mike and forward them to him sometime before May 2000, when he returns home from Antarctica. No cards will be issued prior to his return. Send your cards (direct only) to Mike Fokin, R1AND, c/o Edward Kritsky, P.O. Box 715, Brooklyn, NY 11230, USA. [TNX K1XN @ The Golist]

QSL T33VU ---> QSL manager DL2MDZ has not had much time to process requests in the past few months due to family problems. However the main difficulties are two: the T33VU logs (some 14,000 QSOs) are handwritten and the cards for Karl's (DL1VU) other T3 activities have not been received from the printer so far. Please be patient, above all if you have sent cards for several calls in the same envelope. If you want to get in touch with Rainer, DL2MDZ, his e-mail address is DL2MDZ@t-online.de [TNX DF6EX]

QSL YC5XIP ---> Fulvio, I1WFF reports he has not heard from Syafray, YC5XIP for a long time and is still waiting for the new logs. He has processed all the requests received so far for the contacts he can confirm - if you worked YC5XIP on one of the days detailed below, you can send your card to Fulvio Marin, P. O. Box 88, 13900 Biella - BI, Italy. I1WFF has the logs for 2, 3, 5, 11, 12, 23 October 1997; 6, 9, 14, 15, 16, 17, 19 September 1998; 23, 24, 25, 27, 30 October 1998; 1, 2, 28, 30 November 1998; 5, 18 December 1998.

QSL VIA PY7MEU ---> Pedro, PP5SZ reports that the new QSL route for ZY7G and ZW7G [425DXN 437], as well as for ZX7G [425DXN 439], is via PY7MEU (Eglaube Rocha, Caixa Postal 322, 50001-970 Recife - PE, Brazil) or through the bureau.

QSL VIA UA3AGS ---> Sergei, UA3AGS is the QSL manager for EX8W and for Franz Josef Land stations R1FJL, R1FJV and R1FJO. Amateurs in CIS countries should send their requests to P.O. Box 1, Moscow 109387, Russia, while all others should use P.O. Box 196, Pepperell, MA 01463-0196, USA [TNX The Daily DX]

+ SILENT KEYS + Bob Schenck, N200 reports that Charlie "Jack" Jackson, SV0AA became a silent key in late June at the age of 87. First licenced in 1931, he was a Life Member of the ARRL, held 5BDXCC, A-1 Op, FOC, QCWA & OOTC. We have also been informed that Michele Cicerchia, IK6MQP passed away in late September - we'll miss him on the pile-ups.

3C0R ---> The Daily DX reports first hand information about the recent operation from Annobon. The operators left the island two days earlier than expected due to a forecast storm which would have made it difficult to get back on time. All of the 23,800 QSOs were made by Elmo/EA5BYP and Vic/EA5YN, as Roberto/3C1RV was very sick and unable to operate while Ramon/3C1GS had other duties that had to be done. Hopefully the logs will be available on line in about two weeks, but it should be noted that, due to computer problems, the QSOs had to be handwritten. Plans are being made for a future activity with more operators. QSL via EA5FVY (Angel Garcia Mendoza, P.O. Box 3045, 03080 Alicante, Spain). The web page for the operation is at <http://web.jet.es/lynx/annobon/annobon.htm>

NEW ORLEANS INTERNATIONAL DX CONVENTION ---> The following announcement comes from Don, W5FKX: "After several weeks of review and soul-searching, the

Board of Directors of the New Orleans International DX Convention voted to dissolve the convention. Faced with a financial deficit and a flat attendance for the last several years, a majority of the Board were no longer willing or able to justify the extensive amount of work and effort that was required to maintain a quality program. It was with great sadness that this final step was taken. The Board extends its sincere thanks to all of our friends and supporters, as well as to all those who have attended over the last 8 years." /EX

THE DAILY DX SEARCH PAGE ---> The engine can search through old issues of this most valuable DX bulletin born in 1997. As The Daily DX is distributed on a subscription basis, the search page will always be 6 to 8 weeks behind - however, if you are looking for an older piece of information, it is really worth a try at <http://www.dailydx.com/search.html>

V31KQ ---> Due to a paperwork mishap, the callsign for the 10-16 October operation from Ambergris Cay (NA-073) was V31KQ and not V31HK as reported in 425DXN 440. QSL via WA0ETE. [TNX K9RZ]

VK9RS ROWLEY SHOALS QSLs ---> The following statement has been issued by Martin Atherton, G3ZAY, RSGB IOTA Committee Chairman, and Roger Balister, G3KMA, IOTA Manager, on behalf of the RSGB IOTA Committee: "The RSGB IOTA Committee regrets that there seems to have been some confusion regarding the handling of bureau cards for this DXpedition. The Committee's understanding was that an agreement had been reached with Mal, VK6LC, that, as part of the arrangements for providing significant funding for the expedition, the IOTA Committee would take on the task of locating a QSL manager for bureau cards. It is now apparent that Mal did not understand it that way and has decided to handle bureau cards himself. We welcome that and this matter is now resolved. We do want to make it clear that our previous appointment of Mauro, I1JQJ, as QSL manager had the full authority of the Committee and was based on our understanding of the agreement with Mal at that time. We were grateful to Mauro for agreeing to take this on. We congratulate Mal and his team on the fine operations they mounted." Please note that Mal, VK6LC has now announced his QSL arrangements as: QSL VK9RS direct to I1HYW, bureau cards to VK6LC.

9N1MM DONATIONS ---> The following comes from Charles Harpole, K4VUD/9N7UD (k4vud@hotmail.com): "If anyone would care to make a rig or \$\$\$ donation to the 9N1MM memorial club station in Kathmandu, Nepal, please contact me. If you have gear or parts to contribute, please plan to have them shipped to me at K4VUD Callbook address to arrive prior to December 1, 1999. There are three NEWLY licensed 9N hams there now who have no prospect of getting gear and getting on the air unless donations come to them. One of them is young with some time to operate and is a 30 WPM CW man! He does not even have a Morse key of his own!".

CYCLONE EMERGENCY ---> The following comes from Nat, VU2NTA: "The Cyclone which hit the East Indian state of Oriisa has left behind utter devastation. Radio amateurs are active on 14.140-180 and 7.030 MHz and we would Appreciate if all stations (particularly from Europe, Russia and the CIS countries), when propogation opens up, do not use these segments so as to enable relief to reach the affected areas".

IOTA 2000 ---> The purpose of the RSGB IOTA Millennium Programme (IOTA 2000) is to celebrate the Millennium, to promote IOTA activity and to have fun on the HF bands. The programme will be administered by the Chiltern DX Club-The UK DX Foundation on behalf of the RSGB IOTA Committee. For full details please visit <http://www.425dxn.org/iota/iota2000>

LU3XX ---> This is Mario Alfredo Carballido, LU3XPS who received his new General licence on 13 October.

VK4AAR ---> "More than 50% of QSL requests come to me via my old address in Dalveen", Alan/VK4AAR reports. "I am also astounded that many are still using the address in Arana Hills which was prior to Augsut 1993". Please note that his current address is: Alan Roocroft, P.O. Box 421, Gatton 4343, Australia.

VK9RS ---> A limited quantity of special legal 45 cent postage stamps are being printed by Australia Post to commemorate the recent VK9RS operation from the Rowley Shoals and will be available in four weeks. Amateurs and SWLs interested in stamp collecting are invited to contact Malcolm K.Johnson, VK6LC at either vk6lc@inet.net.au or 9 Abinger Road, Lynwood, 6147 Western Australia, Australia. [TNX VE6VK]

QSL VIA IK0ZKK ---> Paolo, IK0ZKK is the QSL manager for 4X6RE, CN8SH, CO8DC (CM8DC), YC6HDF and YC8FI. He currently has some logistic problems, but he plans to reply to the requests received so far by December. Please be patient and do not send duplicates.

S79AU ---> This was Sergio, IK4AUY, who was active from Mahe and Praslin (both count for AF-024) in the Seychelles between 22 October and 3 November. QSL via IK4AUY (Sergio Cartoceti, Via Di Corticella 241, I-40128 Bologna - BO, Italy). [TNX IK4AUY]

+ SILENT KEY + Mike, W6RW reports the passing of Bill Adams, W6BA on 29 October at almost 91 years of age. First licensed in 1924 as 6ANN, four years later he made the first known transcontinental QSO on ten metres when he worked 2JN in New Jersey from his Long Beach, CA QTH. He spent the last 35 years of his life retired on his 40 acre antenna farm in Twentynine Palms, California, where he has hosted multi-multi, multi-single and single operator contest operations since 1967.

INTERNATIONAL CONTEST/DX MEETING ---> The 6th annual International Contest /DX Meeting, organized by Contest Club Finland (CCF), will take place in Helsinki, Finland on 21-22 January 2000. For further information visit <http://www.contesting.com/ccf> or contact Pasi, OH2IW at OH2IW@sral.fi

QSL 9U5D ---> The following comes from the QSL manager, SM0BFJ (Leif Hammarstrom, Birger Jarlsgatan 38, SE-114 29 Stockholm, Sweden): "Those who

request QSL from 9U5D and enclosing IRC must be aware of that the coupon must be postmarked at their post office otherwise it is not valid in Swedish post office."

QSL VIA I5JHW ---> Giovanni, I5JHW reports ALL of the cards for his past operations from Tunisia (some 24,000 QSLs) have been sent out either direct or through the bureau. He was active on 28/04-04/05/97 (3V8BB and TS8ZA during ARI Contest), 25/03-30/03/98 (3V8BB and TS5I during WPX Contest), 01/05-04/05/98 (3V8BB including ARI Contest), 11/12-14/12/98 (3V8BB including ARRL 10 Meter Contest), 05/03-07/03/99 (3V8BB including ARRL DX Contest), 30/04-02/05/99 (3V8BB including ARI Contest) and 19/06-21/06/99 (3V8DJ from Jerba Island, AF-083). Please refrain from sending requests for contacts made during other activities, as your card will be trashed.

NOT NA-076! ---> Luis Chartarifsky, XE1L reports with apologies that the W4T operation during the 1999 IOTA Contest took place from Treasure Island, FL located at 27.52N. This means the island counts for IOTA group NA-034, and not for NA-076 as announced on the air and printed on the QSL card.

THAILAND (LOW BANDS AND WARC) ---> The following comes from Ray Gerrard, HS0/G3NOM: "Many queries are being received by Thai stations regarding 160/80 metres and WARC band operation. The authorities in Thailand have not yet completed implementation of the WARC band agreements on 10, 18, and 24 MHz bands. Normally the 160/80 metre bands are not permitted for use by Thailand stations either. However the Radio Amateur Society of Thailand (RAST) obtained special permission to use 80/160 metres for any contest during 1999. The frequencies allocated are really only suitable for CW contests but can be used for SSB. The frequency slots are: 3524-3526, 3534-3536 and 1824-1826 KHz".

+ SILENT KEY + The ARRL reports the passing of Frederick O. Hammond, VE3HC on 7 November at 86 years of age. An amateur for more than 70 years, he was elevated to the Canadian Amateur Radio Hall of Fame in 1996. Recently his collection of vintage amateur equipment was reorganized and reopened to the public to continue his vision of preserving the history of radio for present and future generations. The Kitchener-Waterloo Amateur Radio Club has posted additional information about Hammond at <http://www.kwarc.org/fred/> [TNX ARRL Bulletin]

- FS - Members of the North Jersey DX Association (<http://njdxa.org/>) are active as FS/W2QM from St. Martin (NA-105) until December 8. RTTY and 160 metres operations are planned in addition to the regular HF bands. QSL via W2QM. [TNX ARRL DX Bulletin]
- FT5Z - Michel, FT5ZJ is expected to leave Amsterdam Island in about two weeks, around 15 December. QSL via F2YT.
- GU - Jim, G0OFE will be active as GU0OFE from Guernsey (EU-114) on 8-13 December. He will participate in the 10 Meter ARRL Contest as MU0C. QSL for both calls via G0OFE (bureau cards can be requested at g0ofe@currantbun.com). [TNX OPDX Bulletin]
- H40 - Bernhard, DL2GAC (aka H44MS and H40MS) will be leaving for India on 12 December. At the end of January 2000 he will start a three-month trip in the Pacific area and plans are to operate for about three weeks from Temotu in February. He is looking for a RTTY operator to join him on Temotu (WPX RTTY Contest included), where a beam and an amplifier are available. Please contact him by fax at 0049-741-15377. [TNX DJ3IW]
- JA - JA6CTW is a new resident on Yakushima, Osumi Archipelago (AS-032). QSL via JARL. [TNX JE1DXC]
- OH0 - Look for OH0Z (Multi-Single) to participate in the ARRL 10 Meter Contest (11-12 December) from the Aland Islands. QSL via OH1EH. [TNX The Daily DX]
- PA - Look for Johan, PA3FDO to be active as PA3FDO/p from Ameland Island (EU-038) on 10-13 December, including the ARRL 10 Meters Contest. QSL via home call (not PA3DFO as reported in 425DXN 448: thanks to Gose, PA3GNZ for detecting the typo!).
- TY - Philippe, TU2FH/FK8VHU will be in Benin between 6 and 28 December and hopes to get a licence. [TNX F6AJA and Les Nouvelles DX]

- VK0_mac - Alan Cheshire, VK0LD (aka GM4EEL, VP8PJ, A4XFY, VS6AC, V85AC, P29AC, VK6CQ and VK8AC) is currently active (operating times depend on his work load) from the ANARE Base on Macquarie Island until late 2000 [425DXN 442]. According to a release from Jim Smith, VK9NS "it seems likely that Alan might be the last amateur radio operator on Macquarie Island for many years to come. He is primarily a CW operator, can operate split [in fact on 3 December he was transmitting on 14.003 MHz and listening 5 up, ed.] and is capable of sustained high QSO rates. He will concentrate mainly on 20M or perhaps 15M to maximise the chance of the DXers working a new country. He seems to be uninterested in chasing around the bands towards the multi-band QSO routine and is not interested in list operations of any sort". For further information please visit <http://www.geocities.com/vk0ld/1.html> and do not try to get in touch with him through ANARE. Jim also reports that "it seems that QSLing will be done at the end of the tour on Macquarie Island".
- VP5 - Fred, K4LQ will be active as VP5/K4LQ from Providenciales, Caicos Islands (NA-002) on 8-15 December. He will participate in the ARRL 10 Meter Contest as VP5W with Bruce, W4OV. [TNX The Daily DX]
- YB - YC8ZAM will be active (40, 80 and 15 metres SSB) on 3-5 December to celebrate the 40th anniversary of Sidrap municipality on Sulawesi (OC-146). QSL via YB8BRI (P. O. Box. 73 UPTR, Makassar 90245, Indonesia). [TNX YB8BHC]
- ZF - Glenn, W0GJ will be active as ZF2RT from the Cayman Islands (NA-016) on 8-14 December, ARRL 10 Meter Contest included. QSL via W0GJ. [TNX The Daily DX]

IOTA 2000 ---> The purpose of the RSGB IOTA Millennium Programme (IOTA 2000) is to celebrate the Millennium, to promote IOTA activity and to have fun on the HF bands. The programme will be administered by the Chiltern DX Club-The UK DX Foundation on behalf of the RSGB IOTA Committee. For full details please visit <http://www.425dxn.org/iota/iota2000>

BORNEO DXPEDITION ---> The 1999 Hillview Gardens Borneo DXpedition is now over. A preliminary wrap-up indicates some 21,000 QSOs as 9M600/p (Spratly Islands), 6,000 as V8500, 7,000 as 9M6AAC and 1,000 as 9M6RIT. QSL 9M600, V8500 and 9M6AAC via N200; QSL 9M6RIT via G4SHF. The web site for the operation is at <http://www.qsl.net/n200/borneo/> [TNX N200]

C6 BUREAU ---> Delano Taylor, C6AFV has assumed duties as Bureau Manager for the Bahamas Amateur Radio Society. The address is P.O. Box F-43563 Freeport, Grand Bahama, Bahamas. Delano currently has thousands of cards for the following:

C6ADR	C6AGH	C6AHK	C6AJJ	C6AKL	C6ANF	C6CR
C6AER	C6AGN	C6AHN	C6AJQ	C6AKP	C6APK	C6LE
C6AFE	C6AGP	C6AHR	C6AJT	C6AKQ	C6ASR	C6LFN
C6AFP	C6AGT	C6AHX	C6AJU	C6AKT	C6AVW	C6MPN
C6AFQ	C6AHE	C6AHY	C6AJZ	C6AKW	C6AXP	C61D
C6AFZ	C6AHG	C6AJA	C6AKA	C6AMI	C6CDQ	KR8V/C6A

These cards will be held for 60 days as of 1 December 1999, If there is no response from these stations, your cards will be disposed of.

NCDXF/IARU BEACON ---> The seventeenth beacon in the NCDXF/IARU Beacon Network came on the air from Novosibirsk, Russia at 0945Z on 26 November

1999. The beacon operator is Yuri Zaruba, UA9OBA and call is RR90 (Radio Radio Nine Oscar). The final beacon will be in Hong Kong, China with the callsign VR2HK. For full information please visit www.ncdxf.org [TNX N6EK]

NOT NA-086 ---> Last week C00DX operated from Cayo Sabinal and gave NA-086 as IOTA Reference Number. Martin Atherton, G3ZAY (RSGB IOTA Committee Chairman) reports that "according to the British Admiralty charts there is only about 40 metres of separation between the Cayo and the Cuban mainland at the eastern end (possibly via a man-made or maintained channel) - thus the island does not count for NA-086 (as it fails the 200m rule) if this is accurate. If the CO group can submit better maps then the situation can obviously be reconsidered."

P51BH ---> A few readers were surprised at not seeing any mention of this recent "activity" in last week's 425DXN. We cannot but quote what reported by The Daily DX: "The operator is not Martti, OH2BH and the QSL manager is not Kan, JA1BK". Period!

PATHFINDER ---> Pathfinder, a program that searches address and manager databases, as well as country-specific callbooks, makes it easy to find QSL information from web-accessible sources. As of today, its search library represents 60 online sources of QSL information. Pathfinder is free, and contains no advertising. Commercial use is expressly forbidden. See <http://www.qsl.net/pathfinder> for additional information and download/installation instructions. [TNX AA6YQ]

QSL OD5ZZ ---> Dwaine, K8ME (ex-WA8MEM) reports he is no longer the manager for OD5ZZ. "I have not spoken to Walid in 4 years and I ran out of cards three years ago. Please send all requests direct to Walid in Lebanon". [TNX QRZ-DX]

QSL VK9RS ---> Mal, VK6LC reports that direct cards (via I1HYW) for VK9RS (OC-230) could start to flow around Christmas time, while bureau cards (via VK6LC) are scheduled for about May 2000. The VK9RS special stamps [425DXN 444] are not for sale because of limited quantity: they have been sent to all VK9RS sponsors, the remaining are available to those who have "supported a reasonable donation with their direct QSL card". [TNX VE6VK]

QSL VIA IK2DUW ---> Antonello reports he has processed all the requests received so far for 3W6KA, 3W6LI, BA4RE, EK6LV and UA0FO. He he still waiting for the RU0LL and RU0LL/a cards to arrive from the printer.

WAZ AWARD MANAGER ---> Paul Blumhardt, K5RT (k5rt@cq-amateur-radio.com) has been appointed CQ WAZ Award Manager, effective immediately. He will succeed Jim Dionne, K1MEM, who passed away in October. All WAZ applications and other correspondence should be sent to Paul Blumhardt, 2805 Toler Rd, Rowlett, TX 75088, USA. [TNX KF2TI]

+ SILENT KEY + Ulli, DL9WVM reports the sad news of the sudden passing of Hartmut "Hardy" Mueller, DL2HZM/PY0FZM on 22 November while on Fernando de Noronha. Gerd, DL5WX (Hardy's brother) and Dietmar, DL2HWA will take all his belongings back to Germany, including the logs for PY0FZM. Cards for DL2HZM and all of his past DXpeditions will be handled by DL9WVM, while cards for PY0FZM will be handled by Gunter, DL3XM. You can express your condolences to Gerd, DL5WX at dl5wx@t-online.de

QSL P29VHX ---> Uwe, DJ9HX reports all of direct and bureau cards received so far for P29VHX (OC-008, OC-025, OC-034 and OC-153) have been processed. Incoming requests are now being answered within one week.

QSL R1ANF & R1ANF/A ---> Oleg, R1ANF says that "his change of QSL address for the R1ANF/A operations caused much confusion". Contrary to what previously reported [425DXN 446], cards for both R1ANF (Russian base "Bellingshausen", South Shetlands) and R1ANF/A (Chinese base "Great Wall" and Korean base "King Sejong", both on South Shetlands) should therefore be sent to RK1PWA (Nick Shapkin, P.O.Box 73, 164744 Amderma, Arkhangelskaja, Russia). [TNX DL5EBE]

QSL TM0Y ---> Jean-Pierre, ON4BBA reports the cards for TM0Y (18-25 July activity from Yeu Island, EU-064) will be processed and it is hoped to send them before the new year. QSL via ON4AMM either direct (Mary-Lou Moons, Oudestraat 9, B-3560 Lummen, Belgium) or through the bureau.

QSL VO2CQ ---> Chris, VE3FU (Chris Allingham, 3417 Torwood Drive, Dunrobin, ON K0A 1T0, Canada) reports to be in the process of having new colour photo QSLs printed, so it will take a few months before they are ready. There is no need to resend your QSL. [TNX IK7WUJ]

QSL VIA I0MWI ---> I0MWI is the QSL manager *only* for M1Y (1978-82, never active as T77Y), T77CD, T77E, T77G (1985-92, never active on CW), T77GM (1989-96, pirated since 1997). Bureau cards are processed for A.R.I. members only, others should send their requests direct to Stefano Cipriani, Via Taranto 60, 00055 Ladispoli - RM, Italy. Cards for other San Marino stations should be routed through their QSL managers or through the ARRSM QSL Bureau (P.O.Box 77, 47031 Repubblica di San Marino). [TNX I0MWI, i0mwi@libero.it]

QSL VIA W3HC ---> Mac reports he has logs and cards for HS0E for the years 1989 (5 April-31 December), 1990 (1 January-31 December), 1991 (1 January-31 December) and 1992 (1 January-25 December). Mac also reports he is no longer the QSL manager for J73JT.

QSL VIA W6/G0AZT ---> "All requests received for TY1RY cards have been processed and are in the mail. Further requests for confirmation should be sent direct only to Eddie Schneider, Box 5194, Richmond, CA 94805, USA. I only have 30 requests for GU0AZT cards. If anyone still needs GU confirmed on RTTY, please send your requests as soon as possible, so that I can order a specific number of cards". Finally, please note that Eddie is NOT the general QSL manager for 3V8BB. He can only confirm RTTY contacts he made from 3V8BB on 9-13 October 1996. [TNX W6/G0AZT]

YA4A ---> It was active during the CQWW CW Contest, but it is believed it was a pirate. Neither Jan, K5MA ("I worked him", he says, "and have no idea why he picked my callsign to 'nominate' as QSL manager") nor Dick, K4UTE are the QSL manager for this station (however Dick still has logs and cards for his own genuine YA4A activity back in 1963-65). [TNX OPDX Bulletin and IV3TMM]

+ SILENT KEYS + Former ARRL HQ staffer, "CQ Magazine" DX columnist, original editor of "DX Magazine" and "The DX Bulletin", active contesteer and DXer Charles J. "Chod" Harris, WB2CHO/VP2ML, of Santa Rosa, California, died at 50 years of age on 8 December of complications from a severe heart attack he had suffered in early November.

Tiit Praks, ES7RE, President of ERAU, died on 7 December in a car accident in Finland. [TNX ARRL and ES2NA]

<<< MACAU >>>

Will Macau remain on the DXCC list? Read the following analysis coming from Bernie McClenny, W3UR, Editor of The Daily DX (<http://www.dailydx.com>): "December 20th marks the return of Macao back to China. In order for Macao to remain on the DXCC list it must meet one of the following criteria. One, be a member of the United Nations (UN), it currently is not. Two, have an International Amateur Radio Union (IARU) society, it currently does not. Three, have it's own Call Sign Prefix block issued by the International Telecommunications Union (ITU), it does not have this currently as the XX prefix block belongs to Portugal. From all readings it appears that China plans to have Macao set up as a Special Administrative Region (SAR) like Hong Kong, which was handed over to China by the British in the summer of 1997. Hong Kong meets two of the requirements to be on the DXCC list. It has its own IARU society and its own Call Sign Prefix block. So it appears the only way at this point in time for Macao to remain on the ARRL DXCC list will be for China to assign Macao it's own prefix block which would need to appear on the ITU web page at <http://www.itu.int/radioclub/rr/aps42.htm>".

**** GOOD TO KNOW ... ****

=====

Edited by 11JQJ & IK1ADH

4X2K AWARD ---> The 4X2K Award is for contacting stations operating from the Holyland and from seven major historical sites (namely Bethlehem, Nazareth, Jerusalem, Tiberias & the Sea of Galilee, Galilee, Samaria, Judea) between 1 January and 31 December 2000. For full details please contact Yoram Gottesman, 4Z1GY (high_test@ibm.net). [TNX 4Z1GY]

A61AJ ---> The main part of the most recent operation (by A61AJ, K1ZM, K3RA, KE3Q, N6ZZ, PA4AO/T94S, T93M, T93Y, T97M, W0UN and W3UR) took place on 22-30 November, but T97M stayed until 7 December and was active, with a total of 30306 QSOs (CW 23818, SSB 6201, RTTY 287). The on-line log search will be updated by the end of the week (http://www.dailydx.com/a61aj_search.html). QSL via W3UR either direct (Bernie McClenny, 3025 Hobbs Road, Glenwood, MD 21738) or through the bureau: direct cards will start to go out after the holidays, while bureau cards will mailed out in the summer of 2000. The home

page for A61AJ is at <http://www.a61aj.com> [TNX W3UR]

BT2000 ---> Zheng, BA4EG reports the QSL route given in 425DXN #449 is not correct. Cards for this special Millennium station, which will be operating from AS-137 between 25 December and 2 January), should be sent to BA4EG (ex-BD4EG) at P.O. Box 122-001, Shanghai 200122, China. For further information please visit <http://www.qsl.net/ba4eg>

CAYO SABINAL ---> Please refer to 425 DX News #445 and #448. The following has been received from Oscar Morales, CO20J (General Secretary, Federacion de Radioaficionados de Cuba): "The information about an operation to Cayo Sabinal for the IOTA Program was unauthorized and wrong. The organizers of the DXpedition knew nothing about the note that was sent to you. The person who sent the information was not member of the station. The FRC and the Cuban DX Group know perfectly that Sabinal does not apply for the IOTA Program and it was never part of the operation objectives".

DX CONVENTION ---> The Pacific Northwest DX Convention (DX2000) will be held in Vancouver on 28-30 July. Details are available at <http://www.bcdxc.org> [TNX VE7VR]

FO0 ---> Andre, F6AOI/FO0AOI (SSB) and Serge, F6AUS/FO0SOU (CW) made some 12,000 QSOs during their recent operation. They were active from Marquesas (OC-027) on 4-14 November (8295 QSOs), Raiatea (OC-067) on 15-19 (1934 QSOs), Bora Bora (OC-067) on 20-21 (1140 QSOs) and Tahiti (OC-046) on 22 November (621 QSOs). QSL via home calls. [TNX F6AJA]

GERMAN ISLANDS ---> If you are still looking for one or more German IOTA islands, you can participate in DL2VFR's survey at <http://www.iota-post.de>

OH3AC ---> A special award celebrating the 70th anniversary of OH3AC will be available in 2000. For further information please visit <http://www.softavenue.fi/oh3ac> or e-mail oh3-911@sral.fi [TNX OH3-911]

PIRATE ---> According to an official notice sent out by Pete deVolpi, KC3TL, the York County ARC (KY3ORK) and the PA DX Association, "it is a matter of record that Alex Oosterloo, PD0SES holds a Novice call" which does not allow him to operate on HF. He also signed PA/SV0SS and SV0SS from his home QTH at Huizen, The Netherlands. Since he "has used the PA DX Association for his QSL management fraudulently, the PA DX Association and the York County ARC are nullifying all cards issued by them for contact with PD0SES, PA/SV0SS, and SV0SS". [TNX KC3TL and The Daily DX]

QSL 5R8FL ---> Phil, DS1GQS is receiving several QSLs for 5R8FL, apparently because one of the information sources (<http://www.buck.com/>) lists his home address in Seoul instead of F5TBA's one in France. Phil is returning these requests to sender at his own expenses. Please note that F5TBA's correct address is Joel Champeaux, 372 rue Robert Le Coq, 80000 Amiens, France.

QSL J59OFM ---> The new QSL manager is IZ3BIY: Lodovico Gottardi, Via Colonne 13, 30022 Ceggia - VE, Italy [TNX IZ3BIY]

QSL ZL9CI ---> QSL manager Ken Holdom, ZL2HU reports that all QSLing for the January 1999 DXpedition to Campbell Island is up to date with both direct and bureau requests. As at 10 December a total of 12,680 envelopes have been received which contained QSL cards for 50,155 individual QSOs. In addition to the above 4,089 QSOs have been responded to via the bureau.

XU7AAV ---> Andy, G4ZVJ reports he made some 18000 CW QSOs (3825 during the CQ WW CW Contest) on all bands as XU7AAV between 21 November and 5 December. QSL via G4ZVJ (Andy Chadwick, 5 Thorpe Chase, Ripon, HG4 1UA U.K.). Andy's web site is at <http://www.g4zvj.demon.co.uk/xu.htm>

* TO ALL OUR READERS *
* WARMEST THOUGHTS AND BEST WISHES *
* FOR A WONDERFUL HOLIDAY *
* AND A VERY HAPPY NEW YEAR *

<< CHESTERFIELD ISLANDS >>>

The amateur radio society of New Caledonia (Association des Radio Amateurs de Nouvelle Caledonie, ARANC) is organizing a DXpedition to the Chesterfield Islands (OC-176). Activity will start on 15 March and, pending action on ARANC's application to the IARU for membership, the second phase of the operation may turn out to be the initial operation from a new DXCC entity, starting on 23 March. The radio operating team consists of FK8GM, FK8HC, JA1BK, N4GN, N7NG, OH1RY, OH2BC, OH2BH, OH2RF and another ARANC representative who will be named later. The Chesterfield DXpedition web site will be launched on 1 January 2000 [TNX N4GN]

- 5H - Chris, ZS5IR is active as 5H9IR from Geita, Tanzania, a small town about 80 kilometres west of Mwanza on the southern shores of lake Victoria. He will try to operate on most bands (3.5 MHz and above) on SSB and CW. The 5H4IR call was issued to him by mistake: however, the QSOs he has made with this call (some 200 contacts made before 10 UTC on 24 December) will be valid. QSL via ZS6EZ. [TNX 5H9IR]
- 5R - Michel, F5LET has now moved to Madagascar (AF-013) and is active as 5R8GL. He currently operates (mostly CW, SSB on request) on 10, 15 and 20 metres with a beam, hopefully antennas for WARC and low bands will follow. QSL direct only to Michel Bon, BP 342, 201 Antsiranana, Madagascar (do not use his old address in France!). [TNX F6IRA]
- 9A - Look for special Millennium station 9AY2K to be active between 1 January and 31 December 2000. QSL via 9A1A (P. O. Box 108, HR-10001 Zagreb, Croatia). [TNX 9A9A]
- C5 - Peter, G4MCK will be signing C56/G4MCK from The Gambia starting on 24 December for twelve days. He plans to be active on 80-10 metres SSB only (160 and 6 metres operations depend on the antenna). QSL via G4MCK either direct or through the bureau. [TNX G0SAH]
